MILITARY EYEWEAR SYSTEM®

REVISION.

Outstanding Impact Protection

*Communication and Hearing
Protection Compatible*

Rugged and Durable

Prescription Ready

The Sawfly Eyewear System is proven to be the top performing impact eyewear system available.

DESIGNED FOR FIT, function and comfort, this unmatched level of protection is specifically designed for the military. The curved lens provides an unrestricted field-of-view and maximum ventilation, while the adjustable arms and head strap ensure a perfect fit, every time. The Sawfly's lightweight frame and ultra-thin arms ensure a perfect fit with hearing protection and communications headsets while the lens provides optimum high impact protection with flawless optics. The result is a system that offers best-in-class performance: comfort, compatibility, optics and ballistic protection.

KEY FEATURES

THREE SIZES – Correct size ensures fit, comfort and optical performance. U.S. Army Authorized Protective Eyewear List: Small: NSN 4240-01-607-7512 Regular: NSN 4240-01-527-4051 Large: NSN 4240-01-527-4018

SUPERIOR BALLISTICS – High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles

FLAWLESS OPTICS – Precision manufactured lenses ensure distortion-free vision, full side impact protection and anti-fog performance

INTERCHANGEABLE – Lenses made of indestructible, optical grade polycarbonate that can be interchanged quickly for various light conditions and provide 100% protection from harmful UV-A, UV-B and UV-C rays

TOUGH – Scratch-resistant coating on both sides of lens; resists wide variety of chemicals, including DEET

COMMS-COMPATIBLE ARMS – Lean, extendable arms guarantee the utmost comfort, equipment compatibility and stay-put fit. Slimline ergonomically designed arms ensure hearing protection and head sets work as designed while the over molded underframe provides shock absorption and grip

RUGGED DURABILITY – Eye protection that lasts, performs and protects through all the rigors of combat – in a lightweight package that's just 1 ¼ ounces

PRESCRIPTION READY – Optional Rx insert is also compatible with Desert Locust®, Bullet Ant® Goggles and Wolfspider® Goggles.

Revision offers Rx Carrier fulfillment services in the U.S.: see revisionmilitary.com for details

SAWFLY EYEWEAR OFFERS EXTREME PROTECTION FOR EXTREME CONDITIONS

- CE certified in accordance with EN 166, EN 170 and EN 172
- Certified ANSI Z87.1-2010 Standard
- High velocity impact performance of the Sawfly System is 3-times greater than required by EN166 Clause 7.2.2 and ANSI Z87.1-2010
- Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432 (GL)), superseding (MIL-PRF-31013, clause 3.5.1.1)
- Meets U.S. military eyewear ballistic impact resistance requirements MIL-DTL-43511D, clause 3.5.10

DON'T RISK YOUR EYESIGHT — OVER 90% OF EYE INJURIES ARE PREVENTABLE

Sawfly's best-in-class protection surpassed other eyewear in rigorous impact testing, both in the lab and in the field.

REVISION PROTECTIVE EYEWEAR IS TOUGH ENOUGH TO WITHSTAND A SHOTGUN BLAST FROM 16 FEET (5 METRES)

FIREARM – Maverick Model 88, 26 inch barrel with improved cylinder choke

AMMUNITION – Remington 12 gauge, 1 ounce #6 shot

VELOCITY – 1300 fps \pm 30 fps (396 m/s \pm 9 m/s) at 16ft (5m)

RESULT – 25 strikes, no penetrations

OPTICAL PERFORMANCE

Sawfly eyewear has passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV.

HIGH-CONTRAST LENSES

CLEAR LENSES – Maximize light transmittance. Use indoors or at night.

SOLAR LENSES – Reduce extreme glare and squinting. Use outdoors in bright conditions.

sawfly
MILITARY EYEWEAR SYSTEM®

*3 Sizes Available for Fit, Comfort
and Flawless Optics*

Sawfly Military Eyewear Sizing Guide – When your performance is on the line, 'one size fits most' isn't good enough.

That is why Revision offers **three sizes** for the Sawfly Military Eyewear System, guaranteeing a fit that actually fits. Our range of sizes ensures a comfortable, ergonomically correct, and optically flawless solution for soldiers operating in the world's most dangerous combat and training environments. So you can focus on your mission, not your eyepro.

SAWFLY SIZING GUIDE

	U.S. HAT SIZE	HEAD CIRCUMFERENCE	HEAD WIDTH (ABOVE THE EARS)	ACH SIZE ADVANCED COMBAT HELMET
SMALL	up to 7	up to 22" up to 558mm	up to 6" up to 150mm	SMALL to MEDIUM
REGULAR	7 to 7½	22" to 23 ½" 558 to 595mm	6" to 6 ¼" 150 to 158mm	MEDIUM to LARGE
LARGE	7½ +	23 ½" + 595mm +	6 ¼" + 158mm	LARGE to X-LARGE

HOW TO MEASURE YOUR HEAD CIRCUMFERENCE – Using a tape measure, measure the maximum circumference of the head above the ears, above the ridges of the eyebrows and around the back of the head.

The tape measure must be pulled tight.

HOW TO MEASURE YOUR HEAD WIDTH – Using calipers, measure the maximum head width above the ears. Alternatively, hold 2 pencils on either side of the head and measure head width between them.

REVISION ShadowStrike™

BALLISTIC TACTICAL SUNGLASS

*Interchangeable lenses with
innovative lens exchange*

*OcuMax Plus provides exceptional
anti-scratch & anti-fog protection*

Flawless optics

Robust & durable

Superior ballistics

Military level protection

OCUMAX®

OcuMax® Plus is Revision's proprietary next-generation anti-fog lens coating designed to maintain clarity in extreme conditions.

Revision's OcuMax Plus sets the benchmark for next generation anti-fog coatings. OcuMax Plus provides an optimal combination of anti-scratch coatings on the outside of the lens and anti-fog coatings on the inside.

ShadowStrike Tactical Ballistic Sunglasses –

Elite anti-fog ballistic sunglasses built from the ground up to U.S. military protection standards.

SHADOWSTRIKE SUNGLASSES have a sharp, geometrical wraparound design that provides unobstructed field-of-vision and ballistic protection for fast-paced tactical, special ops, and military operations. Angular frames and a tighter curvature give this line a distinctive look while maximizing protection—fitting squarely, securely, and comfortably at all times.

With optical-grade, polycarbonate lenses, ShadowStrike sunglasses provide the impact resistance Revision eyewear is known for, exceeding U.S. military eyewear ballistic requirements. ShadowStrike sunglasses feature a novel nosepiece mechanism that makes changing out the dual lenses quick and easy. And, this eyewear provides ultraviolet protection and has Revision's OcuMax Plus coating, preventing the close-fit sunglasses from fogging in the heat of the mission.

KEY FEATURES

INTERCHANGEABLE LENSES – Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions

SUPERIOR BALLISTICS – High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles

ANTI-FOG – OcuMax Plus is proven to be the #1 anti-fog and scratch-resistant coating in the world; also resists wide variety of chemicals, including DEET

FLAWLESS OPTICS – Precision manufactured lenses ensure distortion-free vision and anti-fog performance

UV PROTECTION – 100% protection from harmful UV-A, UV-B and UV-C rays

DESIGN – streamlined ergonomic design provides comfort for all

RUGGED DURABILITY – Eye protection that lasts, performs and protects through all the rigors of combat

FIELD-OF-VIEW – Compact, low profile design with unrestricted field-of-view fits comfortably for a variety of missions.

SHADOWSTRIKE PROVIDES BEST-IN-CLASS, MILITARY-GRADE IMPACT PROTECTION

- CE Certified in accordance with EN 166, EN 170 and EN 172
- Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432 (GL)), superseding (MIL-PRF-31013, clause 3.5.1.1)

DON'T RISK YOUR EYESIGHT — OVER 90% OF EYE INJURIES ARE PREVENTABLE

Taking Revision's distinctive sunglasses line to the next level, ShadowStrike Sunglasses have undergone rigorous in-house and external testing to ensure best-in-class fragmentation and impact protection. The ShadowStrike's best-in-class protection surpassed other eyewear in rigorous impact testing, both in the lab and in the field.

ANTI-FOG TEST: EN166, CLAUSE 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C

EN 166: Revision's Ocumax Plus coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.

OPTICAL PERFORMANCE

ShadowStrike eyewear has passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV.

CLEAR LENSES – Maximize light transmittance. Use indoors or at night.

SOLAR LENSES – Reduce extreme glare and squinting. Use outdoors in bright conditions.

HIGH-CONTRAST LENSES

YELLOW – Provide crisp definition in low-light conditions. Use during dull, cloudy or hazy conditions.

VERMILLION – Provide excellent color recognition and depth perception. Use in bright and cloudy conditions to reduce glare.

POLARIZED – Provides minimal light transmittance while reducing surface reflections and glare.

PHOTOCHROMIC – Automatically adjusts to light conditions to provide a clear lens in low/overcast light and a solar tint in bright, sunlit conditions.

MIDNIGHT MIRROR – Two way lens pane has flawless optics with a mirror-light outer sheen concealing the user's eyes.

SILVER MIRROR – Has a reflective style that conceals the user's eyes.

100% UV A-B-C protection

CLOSE UP OF MAGNETIC INTERFACE
ENGAGED WITH GOGGLE

4 MAGNETS CONNECT TO THE ATTACHMENT
POINTS ON THE FRAME OF THE BALACLAVA

The SnowHawk Cold Weather Goggle System

protects in the most extreme environments, completely eliminating exposed skin.

INTRODUCING the world's first-ever fully integrated ballistic goggle and balaclava system offering 100% face coverage, supreme anti-fog performance and ballistic protection. Collaborating with ANON, an industry leading snow sports brand, Revision developed a goggle that provides unmatched ballistic protection and performance in extreme weather conditions. The SnowHawk system includes a magnetically integrated balaclava which seamlessly connects to the goggle. Operators can rely on the system's fog prevention for peak performance in cold climates without compromising protection.

KEY FEATURES

FOG PREVENTION FEATURES –

BREATHABLE BALACLAVA – Mesh over mouth and nose directs breath away from goggle

ANTI-FOG – OcuMax® Plus coating protects against fogging and scratching

VENTILATION – Top and lateral forced air vents provide constant airflow

DUAL PANE LENS SYSTEM – Thermal gasket lens creates an insulated barrier to the cold exterior lens

ANON'S MFI TECHNOLOGY – Magnetic Facemask Integration (MFI) ensures balaclava magnetically connects to the goggle creating a complete facial seal

HIGH-IMPACT PROTECTION – Interchangeable, optical grade polycarbonate lens shields eyes from unexpected fragments and provide 100% protection from UV-A, UV-B and UV-C rays

COMFORT & FIT – Lightweight and comfortable, the SnowHawk is ideal for both tactical operations and extended-use missions

COMPATIBILITY – Low profile design ensures compatibility with helmet, binoculars and night vision systems

ADJUSTABILITY – Adjustable strapping system fits over the helmet, or on head

PRESCRIPTION READY – Optional Rx insert is fully compatible with SnowHawk as well as other Revision spectacles and goggles. Revision offers Rx Carrier fulfillment services.

SNOWHAWK OFFERS EXTREME PROTECTION

- CE certified in accordance with EN 166, EN 170 and EN 172
- Certified to ANSI Z87.1-2010 Standard
- Exceeds U.S. Military eyewear ballistic impact resistance requirements (MIL-PRF-32432 (GL)), superseding (MIL-DTL-43511, clause 3.5.10)

ALL LENSES PROVIDE 100% UV-A, UV-B AND UV-C PROTECTION. LENSES INTERCHANGE EASILY WITHOUT ANY TOOLS.

CLEAR LENSES – Maximize light transmittance. Use indoors or at night.

SOLAR LENSES – Reduce extreme glare and squinting. Use outdoors in bright conditions.

SNOW GLARE LENSES – Revision's SNOW GLARE lens, specifically developed for glare reduction, compliments the SnowHawk Cold Weather System as it is ideal for mountaineers in snow and arctic conditions. This special tint ensures decreased light transmission and reduced reflection off of lens.

HIGH-CONTRAST LENSES

YELLOW – Provide crisp definition in low-light conditions. Use during dull, cloudy or hazy conditions.

VERMILLION – Provide excellent color recognition and depth perception. Use in bright and cloudy conditions to reduce glare.

Laser and other specialty lenses available by special order.

A WINNING COMBINATION

Two industry-leading brands have come together to develop a best-in-class cold weather protective system. Combining Revision's military pedigree and Anon's expertise in snow sports apparel and equipment, the SnowHawk System promises to protect and perform in cold climates.

REVISION®

OcuMax Plus is Revision's proprietary next-generation anti-fog lens coating designed to maintain clarity in extreme conditions. Revision's OcuMax Plus sets the benchmark for next generation anti-fog coatings. OcuMax Plus provides an optimal combination of anti-scratch coatings on the outside of the lens and anti-fog coatings on the inside.

Designed to complement a variety of Armed Forces' helmets, the Revision StingerHawk, an ultra-lightweight spectacle features a compact, low-profile design that delivers on comfort without compromising performance. Contemporary styling meets Revision-trusted ballistic protection, flawless optics and full side impact protection. Guaranteeing comfort and equipment compatibility due to its lean, ergonomic arms, the StingerHawk also has 100% UV-A-B-C protection built in to its high-performance, scratch-resistant, best-in-class anti-fog lens. The StingerHawk Spectacle System optimizes style, weight, ballistic protection and optical performance.

Revision's world-class Industrial Design and Engineering Team employed Finite Element Analysis (FEA) in the design stage of the StingerHawk development process to evaluate the design robustness, viability and integrity by simulating specific ballistic testing standards. The result: a solid design that has already been cycled through multiple rounds of simulated testing, which is then confirmed by physical testing, ultimately offering Revision's customer the highest level of performance and protection.

THE STINGERHAWK SPECTACLE SYSTEM

SLEEK, LOW-PROFILE DESIGN	Lightweight in a sleek wrap-around style that says powerful and aggressive
RUGGED DURABILITY	Eye protection that lasts, performs and protects through all the rigors of combat – in a lightweight package that's just 32 grams
FLAWLESS OPTICS	Precision manufactured lenses ensure distortion-free vision, full side impact protection and anti-fog performance
INTERCHANGEABLE LENSES	Lenses made of indestructible, optical grade polycarbonate that can be interchanged quickly for various light conditions and provide 100% protection from harmful UV-A, UV-B and UV-C rays
FIELD-OF-VIEW	Compact, low profile design with unrestricted field-of-view fits comfortably with a variety of different Armed Forces' helmets
PRESCRIPTION READY	Optional Rx insert is also compatible with Desert Locust® and Bullet Ant® Goggles. Revision offers Rx Carrier fulfillment services
SUPERIOR BALLISTICS	High-impact polycarbonate lenses exceed military ballistic impact requirements for spectacles and goggles
TOUGH	High performance OcuMax® scratch-resistant coating on outside and anti-fog coating on inside of lens; resists wide variety of chemicals, including DEET

Rx Fulfillment Frequently Asked Questions (FAQ) & Important Information

FAQ

Q: Can I send my Optometrist's prescription instead of completing the attached form?

A: Yes. However, please provide all shipping and billing information.

Q: What type of lens material will be used in the Rx Carrier?

A: Revision Eyewear will fill single vision prescriptions using polycarbonate lenses within the Rx carrier to ensure the same protective capabilities as the eyewear. However, other material, such as CR-39, can also be used but must be specified by the customer if required. Please note that only CR-39 material has been tested to the U.S. military impact resistance requirement, MIL-PRF-31013, clause 3.5.1.1 for Spectacles and MIL-DTL-43511D, clause 3.5.10 for Goggles.

Q: What is Pupillary Distance (PD) and why do I need to include my PD on the order form?

A: PD is the distance (in mm) from the center of the pupil in the right eye to the center pupil of the left eye. It is required information to ensure the correct positioning of the lenses within the Rx Carrier.

Q: How long does it take to receive my fulfilled prescription carrier?

A: Delivery time is approximately 2-3 weeks.

Q: What should I do if I am unhappy with the filled prescription lens?

A: Due to the wrap associated with Revision's eyewear, some customers may not be able to wear a sport wrap prescription. If this is the case and the order is returned within 2 months of receiving the Rx, 50% of the original cost will be returned to the customer.

Please note: Revision is not responsible for incorrectly-entered prescription information. When submitting your order, please type the information to ensure legibility and double check it against your prescription information.

Important Information

Prescription lens addition to standard warranty disclaimer (See Warranty Below)

Due to the positioning of the lenses in Revision Eyewear Systems, it may be necessary to apply a correction factor to prescriptions designed for use in conventional prescription eyewear. The amount of the correction factor, if any, is calculated by the supplier of the prescription lens using the standard prescription information submitted by you. As a result, the strength of prescription lenses used in your Revision Eyewear System may not be identical to the strength of the lenses in your standard prescription eyewear, but will provide for properly corrected vision.

It is very important to submit current, accurate prescription information when ordering prescription lenses for use with a Revision Eyewear System. Failure to submit correct information regarding your prescription could result in blurred vision, eye strain, fatigue, and/or headaches.

Revision recommends that you obtain your Pupillary Distance measurement from a licensed eye doctor or optician. Many optical stores will provide this service free of charge.

Prescription lenses used in Revision Eyewear Systems are prepared at Revision's request by an independent, licensed provider of prescription lenses. Revision does not perform or offer to perform services as an optometrist or optician.

Limited Warranty on Revision Eyewear Systems

- WHAT DOES THIS WARRANTY COVER?** This warranty covers manufacturing defects in your new Revision Eyewear System. The system has been thoroughly tested and inspected before shipment. The lenses, made from high-grade, optical quality polycarbonate, provide superior impact resistance, durability, and 100% UV protection, and are scratch-resistance coated, but **SCRATCHED LENSES ARE NOT A MANUFACTURING DEFECT**.
- HOW LONG DOES COVERAGE LAST?** For all components of your Revision Eyewear System, this warranty lasts for a period of three years from the date of purchase as long as you (the original purchaser or recipient) own your Revision Eyewear System. Coverage terminates if you sell or otherwise transfer your Revision Eyewear.
- WHAT WILL REVISION DO?** Revision will **replace** any defective component of your Revision Eyewear System. You will not be charged for replacement components but you are responsible for the cost of shipping the defective component to Revision and for a processing fee of \$9.95.

For any questions, please contact Customer Care at (802) 879-7002 or prescriptions@revisioneyewear.com

Limited Warranty on Revision Eyewear Systems - Continued

4. **HOW DO YOU MAKE A WARRANTY CLAIM?** If a defect develops in any component of your Revision kit under normal use, send the defective component along with proof of purchase and a check or money order for the processing fee of \$9.95 via *insured mail*, or overnight courier, delivery pre-paid, to Customer Care at:
Revision Eyewear Ltd., 7 Corporate Drive, Essex Junction, VT 05452
5. **WHAT DOES THIS WARRANTY NOT COVER?** This warranty does not cover scratched lenses, loss, or components that have been damaged by abuse, misuse, or accident.
6. **WHAT DAMAGES ARE AVAILABLE?** REVISION makes no express or implied representations, warranties or guarantees about the merchantability or the fitness for a particular purpose of REVISION eyewear or the ability of REVISION eyewear to meet the requirements of the person wearing the eyewear. There are no warranties except for those in this document. Damages for breach of implied or written warranty on the Revision Eyewear System are limited to replacement of defective components, which is the exclusive remedy.

IN NO EVENT SHALL REVISION EYEWEAR LTD. BE LIABLE FOR INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, DAMAGES FOR PERSONAL INJURIES, WHETHER SUCH DAMAGES ARE ALLEGED IN TORT, CONTRACT, INDEMNITY OR OTHERWISE, EVEN IF REVISION EYEWEAR HAS BEEN APPRAISED OF THE POSSIBILITY OF SUCH DAMAGES.
7. **HOW DO I GET INFORMATION ABOUT LOST COMPONENTS?** Replacement information is available by calling Customer Care at 802-879-7002 or email customer care@revisioneyewear.com.
8. **HOW DOES STATE LAW APPLY?** This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. Some jurisdictions do not allow the exclusion of or limitation of incidental damages, so the limitations or exclusions in this warranty may not apply to you.

For any questions, please contact Customer Care at (802) 879-7002 or prescriptions@revisioneyewear.com
