CIVIL & MILITARY PROTECTIVE EQUIPMENT

DEENSIDE

CIVIL & MILITARY PROTECTIVE EQUIPMENT

DEENSIDE LTD. WAS ESTABLISHED IN 1981 TO PROVIDE A WIDE RANGE OF HIGH QUALITY, INNOVATIVE PRODUCTS TO THE POLICE, PRISONS, MOD AND OTHER GOVERNMENT ORGANISATIONS BOTH IN THE U.K. AND INTERNATIONALLY.

We aim to work with our customers to research, design and develop new products to meet their needs in an ever-changing environment, and it is this personal service that has made us leaders in the field of personal protective equipment.

Deenside Ltd are the UK's leading manufacturers of personal protective equipment. All our products are manufactured under strict ISO9001:2000 guidelines and all of our equipment is fully guaranteed. This catalogue contains just a small representation of the products and services that we provide to the UK Police and Military and to their International counterparts.

If you do not see the product or service you are looking for simply contact the Deenside team or one of our international agents and we will be happy to discuss your requirements with you. Deenside will provide professional equipment and services at the right price to suit your needs.

THIS CATALOGUE IS ONLY A SMALL REPRESENTATION OF THE PRODUCTS OFFERED BY DEENSIDE. WE MANUFACTURE AND SUPPLY ALL ASPECTS OF PERSONAL PROTECTIVE EQUIPMENT (PPE). IF YOU CANNOT FIND WHAT YOU REQUIRE THEN PLEASE CONTACT THE DEENSIDE OFFICES WHERE WE WILL ENDEAVOUR TO MEET YOUR REQUIREMENTS AND GIVE YOU A PERSONAL QUOTE.

HOW TO MEASURE

WOMEN'S HIPS (4.)

Stand with heels together and measure around the fullest part of hips.

BELTS

Order your belt 5cm larger than your waist size. If between 'even' sizes, order the next larger size.

HELMETS, CAPS OR HAT SIZE

Use a cloth tape measure for determining your correct helmet, cap or hat size. Measure completely around the head, starting approximately 2.54cm above the eyebrows in the front and going around the largest point at the back of the head.

GLOVES

Measure around hand at fullest part (exclude thumb). Number of inches equals glove size.

INSIDE LEG (2.)

Take a pair of uniform trousers (not jeans) that fit you well. Measure (to nearest inch) from the crotch seam to the bottom of trousers.

CHEST/BUST SIZE (1.)

Measure just under the arms, completely around the back and across the broadest part of the chest area. Hold tape firm and level.

NECK

Measure a shirt that fits you well. Lay the collar flat and measure from the centre of the collar button to the far end of the button hole. The number of inches equals your size.

SLEEVE

Measure from the centre of the collar (in the back), across the shoulder and down the sleeve. Number of inches equals sleeve length.

**MAIL MEADOWS HOUSE,
HENRY STREET,
NORTHAMPTON NN1 4JE**

24 hours a day, 7 days a week. Please include name, address, delivery instructions, item codes, descriptions, quantities, sizes, colours and payment details for prompt processing of your order.

TERMS & CONDITIONS

DELIVERY

We will endeavour to send your goods as soon as possible. Due to the amount of products we sell it is not possible to hold all the sizes and variations in stock. Shipping will be via a reputable courier service, and by Recorded Courier or Recorded Mail for overseas items. We will always endeavour to provide the cheapest and most secure method of shipping your items. If you require a tracking number this can be provided. Overseas orders will be charged for delivery, please ring Deenside for exact charges.

GUARANTEE

All of Deenside's products are fully guaranteed.

BACK ORDERS

If your item is not in stock, we will back order for you.

TAX CHARGES

For orders made from the UK or the European Union, the appropriate VAT will be added.

PRIVACY POLICY

Deenside Ltd will not disclose buyers' information to third parties other than when order details are processed as part of the order fulfilment. In this case, the third party will not disclose any of the details to any other third party.

RETURNS POLICY

If a product does not meet your satisfaction, simply contact Deenside for details of how to return the product. Your rights to return goods are protected under the EU Distance Selling Directive which can be found at <http://www.opsi.gov.uk/si/si2000/20002334.htm>

POLICE IRRITANT SPRAY TW1000

THE TW1000 COMPOUND IS THE MOST ADVANCED POLICE IRRITANT SPRAY AVAILABLE IN THE WORLD. THE FORMULATION IS COT, COMMITTEE ON TOXICOLOGY AND CAST, CENTRE FOR APPLIED SCIENCE AND TECHNOLOGY APPROVED*

The TW1000 patented delivery system allows the spray to be delivered at any angle throughout 360 degrees. TW1000 is the first and only product in the UK offering this. This enables Officers to operate the spray at any angle or position, thus providing far greater Officer Safety. The delivery system also has a unique trigger mechanism which indicates when the spray has been deployed, thereby improving the chain of evidence and subsequent re issue of TW1000.

TW1000 is manufactured in a state of the art laboratory in Germany. TW1000 is distributed in the UK exclusively by Deenside Ltd

D001 STANDARD BLUNT TRAUMA VEST

SIZE: ONE SIZE

The Deenside Standard Blunt Trauma Vest has been developed to provide protection against axes, machetes, projectiles, darts, batons bricks and hypodermic needles. It is constructed from a rigid plastic material formed to the shape of the chest and back with foam padding which absorbs any impact, both are covered with black leather for durability. Adjustable shoulder protectors, of the same construction are also provided. The vest is attached by webbing straps with Velcro® fastenings that are riveted as well as sewn for extra strength, and straps front and back for attachment to the trouser belt. The Vest is adjustable to suit most sizes of person.

NOTE: AVAILABLE WITH DEENSIDE ABDOMEN GUARD (PRODUCT CODE D002) AS AN OPTIONAL EXTRA.

D100 LIGHTWEIGHT VEST IN ABS

SIZE: ONE SIZE

The Deenside Lightweight Vest has been developed to provide protection against axes, machetes, projectiles, darts, batons bricks and hypodermic needles. Constructed from lightweight ABS plastic with foam backing for added comfort. The vest is fitted across the shoulders and around the waist by 2" (50mm) nylon webbing straps and is fastened with Velcro®, allowing for considerable adjustability to fit a range of sizes.

D102 LIGHTWEIGHT FEMALE VEST IN ABS

SIZE: ONE SIZE

The Deenside Lightweight Female Vest has been developed to provide protection against axes, machetes, projectiles, darts, batons, bricks and hypodermic needles. Constructed from lightweight ABS plastic with foam backing for added comfort. The vest is fitted across the shoulders and around the waist by 2" (50mm) nylon webbing straps and is fastened with Velcro®, allowing for considerable adjustability to fit a range of sizes. The front of the vest forms a T-bone shape in order to allow the officer to wear it in conjunction with Deenside Breast Guards (Product Code D133).

D109 LIGHTWEIGHT GROIN AND BOX

COLOUR: BLACK

The Lightweight Groin Guard has been specifically designed for male officers to give maximum protection and comfort without restricting comfort. The groin guard is secured to the waist with an elastic adjustable belt with Velcro® fastening and elastic leg straps to ensure the guard stays against the groin area. Inside the groin is a pocket for the box, which allows for removal for cleaning or replacement.

NOTE: THE GROIN GUARD CAN BE PURCHASED SEPARATELY AS PRODUCT CODE D108.

D108 LIGHTWEIGHT GROIN GUARD

COLOUR: BLACK

The Lightweight Groin Guard has been specifically designed for male officers to give maximum protection and comfort without restricting comfort. The groin guard is secured to the waist with an elastic adjustable belt with Velcro® fastening and elastic leg straps to ensure the guard stays against the groin area. Inside the groin is a pocket for the box, which allows for removal for cleaning or replacement.

D135 WOMEN'S LIGHTWEIGHT GROIN AND PELVIC BONE

COLOUR: BLACK
SIZE(S): MULTI-SIZE

Specially designed and shaped for a female officer combining comfort and protection with ease of movement. The guard is secured to the waist by an elastic adjustable belt with Velcro® fastening. This new design has been made extra secure by the addition of two elastic straps joined from the base of the pelvic bone guard to the waist, ensuring it is held firmly in place.

D265 LEVEL 2 UPPER
ARM GUARD

SIZE(S): SHORT, REGULAR OR LONG

This product is designed to provide protection without impeding the movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS BS7971-4 LV2. Upper arm guards are in pairs. Yellow Velcro® on the upper arm strap signifies the right arm. Each guard is secured by a 30mm Elasticated strap.

D269 SHOULDER & LEVEL 2
UPPER ARM GUARD

SIZE(S): SHORT, REGULAR, LONG AND EXTRA LONG

This product is designed to provide protection without impeding free movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. The shoulder guard is held onto the wearer's body armour by passing the 50mm elastic strap under the ballistic vest and back over the top of the shoulder guard. The shoulder guard is then secured by feeding the elastic strap through the plastic guide and onto the shoulder, fastening by Velcro®. The upper arm is then secured using the 30mm Elasticated strap. Shoulder & upper arm guards are in pairs. Yellow Velcro® on the upper arm strap signifies the right arm.

NOTE: D269 RANGE IS DESIGNED TO BE WORN IN CONJUNCTION WITH BALLISTIC/KNIFE VEST.

**OVER 30
YEARS OF
INNOVATION**

DEENSIDE
CIVIL & MILITARY PROTECTIVE EQUIPMENT

D002 STANDARD BLUNT TRAUMA
ABDOMEN GUARD

SIZE(S): MULTI-SIZE

The Deenside Abdomen Guard has been developed to provide protection against axes, machetes, projectiles, darts, batons, bricks and hypodermic needles. It is constructed from a rigid plastic material with foam padding which absorbs any impact and covered with black leather for durability. It is designed to attach to the Standard Blunt Trauma Vest (Product Code D001). The Abdomen Guard is attached to the Vest by two 'D' rings. These are secured to the Abdomen Guard by webbing loops riveted on for extra strength.

D009 MEN'S PADDED
ABDO BOX

SIZE: ONE SIZE

The Deenside Padded Abdo Box is constructed in rigid plastic, with padded edges all round to cushion any blows, kicks or strikes to the groin. This product conforms to impact resistance BS6181 Grade 1.

NOTE: THIS PRODUCT CAN BE WORN IN CONNECTION WITH THE DEENSIDE JOCK STRAP (PRODUCT CODE D094).

D094 MULTISIZE
JOCK STRAP

COLOUR: WHITE

Ideal for use when training or in public order situations. Provides support and protection to the groin area. Can be used in conjunction with the Deenside Abdo Box (Product code D009). The Jock Strap comes as a multi-sized item covering waist sizes from 26" - 44".

D262 LEVEL 2 FOREARM AND ELBOW GUARD

SIZE(S): SHORT, REGULAR OR LONG

This product is designed to provide protection without impeding the movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Forearm and elbow guards are in pairs. Yellow Velcro® on the elbow strap signifies the right arm. Each guard is secured with three Elasticated straps.

D260 LEVEL 2 SLIMLINE FOREARM AND ELBOW GUARD

SIZE(S): SHORT OR REGULAR

This product is designed to provide protection without impeding free movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Forearm and elbow guards are in pairs. Yellow Velcro® on the elbow strap signifies the right arm. Each guard is secured with three Elasticated straps.

NOTE: D260 RANGE IS DESIGNED TO BE WORN BY SLIGHT OR SLENDER OFFICERS

D261 LEVEL 2 LIGHTWEIGHT FOREARM AND ELBOW GUARD

SIZE(S): SHORT, REGULAR OR LONG

This product is designed to provide protection without impeding the movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Forearm and elbow guards are in pairs. Yellow Velcro® on the elbow strap signifies the right arm. Each guard is secured with three Elasticated straps.

NOTE: D261 RANGE IS DESIGNED TO BE WORN AS AN ALTERNATIVE TO THE STANDARD RANGE

D104 KNIFE RESISTANT FOREARMS

SIZE: PRODUCED IN ONE SIZE TO FIT ALL OFFICERS

The Deenside Knife Resistant Forearm is manufactured in clear polyurethane with an extremely high impact strength. The guard completely encases the forearm and is designed to taper in towards the wrist for a comfortable fit.

D133 BREAST GUARDS FOR CROP TOPS

SIZE(S): A, B, C, D, AND DD

Specially designed to provide comfort and protection to the female officer, the Deenside Breast Guards fit inside the pocket of the Deenside Crop top (Product code D134). Breast guards are available in a wide range of sizes to suit all officers.

D134 CROP TOP FOR BREAST GUARDS

COLOUR: WHITE
SIZE(S): EXTRA SMALL, SMALL, MEDIUM, LARGE AND EXTRA LARGE

Manufactured from 100% quality cotton, the Deenside crop top contains internal pockets to allow for fitting of Deenside breast guards (Product code D133).

D266 LEVEL 2
LIGHTWEIGHT /
REDUCED WIDTH
SHIN AND KNEE
GUARDS

SIZE(S): EXTRA SHORT, SHORT,
REGULAR OR LONG

This product is designed to provide protection without impeding free movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Shin and knee guards are in pairs. Yellow Velcro® on the knee guard strap signifies the right leg. Each guard is secured by three Elasticated straps.

NOTE: D266 RANGE IS DESIGNED AS AN ALTERNATIVE TO THE STANDARD SHIN AND KNEE GUARDS (D264)

D264 LEVEL 2 SHIN AND
KNEE GUARDS

SIZE(S): SHORT, REGULAR,
LONG OR EXTRA LONG

This product is designed to provide protection without impeding the movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Shin and knee guards are in pairs. Yellow Velcro® on the knee guard strap signifies the right leg. Each guard is secured by three Elasticated straps.

NOTE: D264 RANGE IS DESIGNED TO BE WORN WITH D268 METATARSAL GUARD.

D263 LEVEL 2
THIGH GUARDS

SIZE(S): EXTRA SHORT, SHORT,
REGULAR OR LONG

This product is designed to provide protection without impeding the movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Level 2 Guards have been shown to resist displacement from limbs and torso to a level beyond that required by BS7971-4 LV2. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score for the requirements of BS7971-1. Thigh guards are in pairs. Yellow Velcro® on the thigh strap signifies the right leg. Each guard is secured with two straps, one secures the guard to the leg, the other feed around the wearer's belt and thus secures to the waist.

D268 METATARSAL
GUARD

SIZE(S): MULTI-SIZE

This product is designed to provide protection without impeding free movement of the body against the risk of injury that could be caused by missiles thrown or skated, strikes by batons, poles or bars, kicks, punches and catapulted missiles that may be used against officers in operational or training scenarios. Deenside Guards have been shown to resist displacement from limbs and torso to a high level. They have been assessed for comfort when worn for extended periods of time, ease of donning and any restriction to normal movement during physical activity and have been shown to have an excellent ergonomic score. Metatarsal guards are available in pairs, and are attached to the footwear by passing the strap through the laces and securing with the Velcro® fastener.

QUALITY WITHOUT COMPROMISE

D646 ACH/ MICH BALLISTIC HELMET

The Deenside Advanced Combat Helmet (ACH/ MICH) delivers advanced ballistic, fragmentation, and impact head protection, with unsurpassed comfort for long-term use. The helmet's low-profile design reduces the risk of interference in target acquisition and ensures compatibility with NVGs (night-vision goggles), Deenside Gas Masks.

An innovative suspension system for a truly personalized fit.

Ballistic Level IIIA and impact head protection

NVG compatible

Unsurpassed comfort for long-term use.

Unsurpassed stability, due largely to 4-pt. chin strap system with nape pad

Low-profile design to reduce risk of interference in target acquisition

Compatibility with NVGs, CBRN Gas Masks & communication devices

Weight: Medium 3lbs, XL 3.5lbs

Impact mitigation, less than 150gs force transmitted to the head at 10 fps

Minimum static load test of 150 lbs.

Minimum dynamic load test of 25 fps

Ballistic performance within the following temperature range: -40°F to 160°F

No degradation of performance after 3-Foot immersion in salt water for 3 hours

D646 PASGT BALLISTIC HELMET

The Deenside PASGT Helmet is specifically designed for Law Enforcement personnel. To this end the materials and manufacturing have been tailored to offer excellent bullet resistance with minimal back face deformation. Deenside PASGT Ballistic Helmet uses the same outer shape as the US military helmet but applies new materials technology which not only increases its performance but reduces its weight. The harness is a brand new which offers superior stability and comfort.

Ballistic performance to NIJ IIIA.

Very high fragmentation protection with a V50 well over 2150 ft/sec (650 m/sec.)

UHD moulding technology with blunt trauma up to 50% less than conventional products.

Lighter weight - at least 15% less than standard products.

Superior comfort with the latest internal harness design.

Reduced number of fixing points.

Improved head stability with a unique 4 point harness.

Shock absorption against low velocity impacts

HELMET STICKERS

The new Deenside Helmet Labels are now in easy peel format. They comply with the Identification Marking of Public Order Helmets (1999) as approved by HOSDB. To apply your label - Step 1: Peel backing to reveal adhesive on the reverse of the letters; Step 2: Place label in the required position on the helmet and rub firmly over the digits; Step 3: Gently peel the backing application tape off to reveal your label combination.

D076 HELMET BAG

SIZE: 29" LONG X 18" WIDE
COLOUR: NAVY

Specifically designed to give basic protection to both the helmet and visor from superficial damage, such as scratches, when in transit or storage. The helmet bag can also be produced with your force name or any other script you require printed on for an additional charge. Quotes available on request. The bag is made in polycotton, with a nylon pull cord.

D171 FOLDING BASEBALL CAP

Folding Baseball Cap with carrying pouch
Professional appearance
Central seam on visor allows folding for easy storage
Embroidered logo bespoke to requirements
With or without chequered strip
Available in Black, Blue or High Visibility Yellow (other colours by special order)
Size adjustable clasp
100% polyester

D170 SATIN YELLOW WATERPROOF CAP

SIZE(S): MULTI-SIZED

Satin yellow cap with 'POLICE' logo and checkering sewn on, standard peak, inner lined, outer manufactured from waterproof material. Velcro backs adjustment to fit all sizes.

D242 POLICE MARKSMAN CAP

COLOUR: BLACK OR NAVY
SIZE(S): MULTI-SIZED

Police marksman's cap with 'POLICE' logo and checkering sewn on, standard peak, inner lined, outer manufactured from 100% cotton.

D151 POLICE MARKSMAN CAP

COLOUR: BLACK OR NAVY
SIZE(S): MULTI-SIZED

Police marksman's cap with 'POLICE' logo and checkering sewn on, standard peak, inner lined, outer manufactured from 100% cotton.

D712 MILITARY /
POLICE RESPIRATOR

COLOUR: BLACK

This full face mask is multi-purpose, newly designed for military, police, emergency rescue, mining industry and similar harsh environments. This full face mask has three connectors on the facepiece so that you can choose a different connection to three different canisters.

LOW INWARD LEAKAGE

Somatomological structure and design by 3D software ensures a perfect fit to different face shapes with less leakage.

COMFORTABLE

Made with high-quality silicone, the facepiece is flexible and comfortable, providing a long service life.

FULL RANGE OF VISION

Super-wide lens allows full range of vision and offers flexibility and freedom for working in a variety of industrial environments and temperatures. Wide polycarbonate lens features a dual coating: scratch resistant on the outside, anti-fog on the inside.

FIVE-POINT HEAD STRAP

Five easy-adjusting straps. Elastic structure with roller buckles, easy and quick to adjust.

THREE-POSITION CONNECTOR

Connector for three different positions, could be based on different environments.

COLLECTS CONDENSED WATER

Especially for military, police, emergency services, and suitable for long time use. Easily collects water coagulation.

COMPLETE WITH POUCH TO BE ATTACHED TO BELT

C300L Aluminium filter canisters for full face masks for use with Organic Vapours, Chlorine, Sulphur Dioxide, Nitrogen Oxide, Hydrogen Sulphide.

GAS FILTER TYPE

A	BROWN	Organic gases and fumes with a boiling point >65°C
B	GREY	Inorganic gasses and fumes
E	YELLOW	Acidic gasses
K	GREEN	Ammonia gas and organic amines
P2	WHITE	Solid and liquid particles

CE APPROVAL BY TNO HOLLAND, NIOSH CBRN APPROVED TC-14G-0285, NIOSH APPROVED 42 CFR 84 CS/CN/P100

FULL FACE RESPIRATOR

COLOUR: BLACK

This full face mask is a multi-purpose full-face Respirator, designed for Military, Police and Emergency Services. Provides a perfect fit to all different face shapes ensuring maximum seal. Made by high-quality silicone, the face piece is more flexible and comfortable, providing a long service life. Full range of vision even when worn with a helmet. Wide lens allows full range of vision. Offers flexibility and freedom for working in a variety of industrial environments Polycarbonate lens features has a dual coating: scratch resistant on the outside, anti-fog on the inside. Five-point head strap.

Material: Silica Gel.

Lens: Tensile strength of anti fog/mist visor 150N

Connector: EN148-1

Aluminium canister weight: 320G

Tensile strength of the head strap: 147N, F/R

Weight: Approx 500 grams

One set includes: Mask, canister and carry bag.

Full range NATO connection canister

D025 BOOT BAG

COLOUR: BLUE

Waterproof, heavy duty nylon boot bag, fits full range of Deenside boots and shoes. Keep your dirty boots off your clean kit.

D022 PROTECTIVE LEATHER GLOVES

SIZE(S): XS (7), S (8), M (9), L (10), XL (11), XXL (12)

The Deenside Protective Leather Glove is produced from high quality leather. Resistant to fire, this glove protects with padded areas to fingers, knuckles, back of hand and forearm. Fully adjustable, with Velcro strap and fully lined.

D024 CONTROL PUBLIC ORDER BOOT

SIZE(S): 3-8 (UK LADIES) 6-13 (UK MENS)
36-42 (CONTINENTAL LADIES)
39-48 (CONTINENTAL MENS)

COLOUR: BLACK

Full grain leather, dual density rubber sole, nail proof LENZI LPROTECTION midsole. Cut resistant lining, dual density rubber sole for durability. Fire retardant laces and thread. Full length footbed for instant comfort. Downward facing seams for petrol to run off. Soft leather padded collar for secure fit. Ankle support, shock absorbing ankle protection and protective ankle impact zone. All key seams are double stitched for long life. Impact steel toe cap to 200 joules. Heat resistance sole to 300 degrees.

SOLAR SHIELD TECHNOLOGY

Leather is specially treated to help keep the foot cool despite the effects of strong direct sunlight. The treatment reinforces the leather's natural properties by reflecting sunlight away from the boot as well as helping the leather retain its colour properties.

SLIP RESISTANCE - C RATING

An advanced European slip resistance test to standard EN ISO 13287:2007. The sole unit is tested for slip resistance on ceramic tile wetted with dilute soap solution and on smooth steel with glycerol.

STANDARDS: BS7971-5-; 2004 ENISO20345:2004 (+A1:2007)
CATEGORY OF PROTECTION: TYPE 2 LEVEL 3 SRC 53 CR

D031 CUT RESISTANT GLOVE TO EN388 LEVEL 5

SIZE(S): XS (7), S (8), M (9), L (10), XL (11)

The Deenside Slash Resistant Glove is designed to offer the ultimate in protection and comfort. Our glove is made to withstand the toughest conditions faced by Police and Prison Officers. The outer shell is made from revolutionary PYROHIDE grain leather. Internal high impact resistant closed cell foam padding is located across the back of the hand and along each finger and thumb. The palm is protected by a self-leather overlay full palm and finger patches, which also help to extend the life of the product. The elasticised wrist ensures a tight fitting closure. Cut resistance comes from a Kevlar lining.

D033 FINGERLESS FIRE RETARDANT UNDERGLOVE

SIZE(S): ONE SIZE FITS ALL

This glove is flame retardant and made of lightweight blended material. This navy glove is to be worn under standard issue or protective leather gloves.

D032 FIRE RETARDANT UNDERGLOVES

SIZE(S): ONE SIZE FITS ALL

This glove is flame retardant and is made of lightweight blended material. This navy glove is to be worn under a standard issue or protective leather glove.

D078 LONG SHIELD (C&R)
INTERLOCKING

SIZE: 1800MM LONG X 570MM WIDE X 4MM THICK

The Armadillo Shield fully interlocks offering maximum protection not only from frontal attack but side and overhead assault. The Armadillo Shield offers excellent protection for specialist tasks such as baton/gas gunners, surveillance photographers and forward commanders.

D079 INTERMEDIATE LENGTH
SHIELD (C&R) INTERLOCKING

SIZE: 1200MM LONG X 570MM WIDE X 4MM THICK

The Armadillo Shield fully interlocks offering maximum protection not only from frontal attack but side and overhead assault. The Armadillo Shield offers excellent protection for specialist tasks such as baton/gas gunners, surveillance photographers and forward commanders.

D080 ROUND
SHIELD

SIZE: 600MM CIRCUMFERENCE X 3MM THICK

Manufactured in clear polycarbonate, with a spring clip, polyurethane moulded arm guard and moulded 'D' handle. At all fixing holes, metal to polycarbonate contact is prevented by the use of plastic inserts thus reducing the risk of cracking from induced stress.

D206 LONG POLICE
BARRIER SHIELD

SIZE: 1650MM LONG X 570MM WIDE X 4MM THICK

The Armadillo shield fully interlocks offering maximum protection not only from frontal attack but also side and overhead assault. Easy to use and simple to train, in hazardous confrontations officers can assemble highly mobile and secure formations as the Armadillo design allows new formations and high speed mobile tactics to respond to various situations and penetrate situations previously inaccessible with conventional shields. The Armadillo shield offers excellent protection for specialist tasks such as baton/gas gunners, surveillance photographers and forward commanders.

D168 SMALL SQUARE
COMMANDER SHIELD

SIZE: 560MM HIGH X 570MM WIDE X 4MM THICK

Ideally suited for rapid response intervention tactics by being designed to survive extensive impact from thrown objects and edged weapons. The shape is also an ideal replacement for the traditional round shield, particularly when operating in confined or enclosed areas where a square will combine with the structure to provide maximum protection. This shield is fully interlocking with all Armadillo shields and manufactured to the same high standards. With two lightweight aluminium lop handles with non-slip rubber grips for secure handgrip in action and a moulded lip at the bottom to enable vertical stacking.

D179 2FT SHIELD CARRYING BAG

COLOUR: BLACK

This bag has been designed to carry round or square shields. Constructed from a heavy-duty water resistant material, with heavy duty zipped top opening, two carry handles and a shoulder strap. Ideal for covert operations and for protecting the shield blades from being scratched either in transit or storage.

D181 4FT SHIELD CARRYING BAG

COLOUR: BLACK

This bag has been designed for 3/4 or intermediate shields. Constructed from a heavy-duty water resistant material, with heavy duty zipped side openings, two carry handles and a shoulder strap. Ideal for covert operations and for protecting the shield blades from being scratched either in transit or storage.

D071 NOSE GUARD FOR HORSE

COLOUR: BROWN

Constructed in smart brown leather reinforced with rigid plastic and impact absorbing foam, fastening with Velcro®-leather straps.

D072 VISOR FOR HORSE

Constructed from 3mm thick clear polycarbonate sheet moulded to form around the head, to protect the area of the eyes. Attached to the nose guard (D071) and harness with webbing straps and Velcro® fastenings, fitted in seconds.

D073 HORSE FRONT LEG PROTECTOR

WEIGHT: 1.3 KG PER PAIR

Constructed in impact absorbing stretch foam with the addition of rigid ABS plastic and further foam layers for the more vulnerable areas. Secured in position by webbing and elasticated straps with

D074 HORSE REAR LEG PROTECTOR

WEIGHT: 70G PER PAIR

Constructed in impact absorbing stretch foam with the addition of rigid ABS plastic and further foam layers for the more vulnerable areas. Secured in position by webbing and elasticated straps with Velcro fastening. Covers hind legs up to the hock.

D067 MOUNTED RIOT SUITS

SIZING: CHEST 36" (92CM) - 56" (142CM)

Men and Women's tailored Mounted Riot Suits are manufactured from lightweight material. These are specifically designed for use by all Mounted Officers when dealing with instances of serious disorder.

The suits can be made from a range of materials (Nomex, Kermel Viscose, etc.) These suits have been designed to allow the wearer greater comfort. The lower section is based on "Chaps".

QUALITY WITHOUT
COMPROMISE

DEENSIDE
CIVIL & MILITARY PROTECTIVE EQUIPMENT

D085 STANDARD FIRE RESISTANT SUIT

SIZE(S): CHEST 36" (92CM) - 56" (142CM), LEG LENGTH 31" OR 35" BLACK

CAST Certified. Men's and ladies tailored suits manufactured from lightweight material. These are specifically designed for use by Police and Prison Officers when dealing with instances of serious disorder. These suits have a two-way metal zip. The collar can be closed by tab and Velcro, access through openings on side seams closed by Velcro. Elasticated around the ankles and wrists, also across the back waist. All materials used in this suit are as recommended by the Home Office Police Scientific Development Branch. Normally available from stock in 50% Kermel / 50% Viscose, however this product can also be made in 100% Wool Worsted Barathea or 100% Nomex (please phone Deenside for details).

D117 TRAINING SUIT

COLOUR: BLACK
SIZE(S): CHEST - 36" (92CM) - 56" (142CM) / LEG - 31" OR 35"

D084 FIRE RETARDANT UNDERWEAR

SIZES: S, M, L, XL

D128 F.R. EQUIPMENT VEST

COLOUR: NAVY
SIZE(S): SM, MED, LG & XL

100% wool worsted Barathea with Joiran finish. 3 external front zip boards approx. 5" long x 2" deep x 7" wide. One external flat pocket with Velcro to front. Large pocket on back with Velcro fastening for larger items. Velcro patches can be sewn onto breast.

Manufactured from 65% polyester, 35% cotton material, men's and ladies one-piece tailored coverall. Stand collar closed by tab and secured with Velcro. Two-way zip front backed by facing. Two outside breast pockets, flaps fastened down on the sides. Access through openings on the side seam closed by Velcro and backed by facings. The back of the suit is elasticated across at the waist. One-piece sleeves set in and elasticated at the wrists. The suit has shoulder straps/epaulettes self-lined, and fastened with Velcro. All seams are cleanly finished and overlapped. Available with or without 'Instructor' badge.

PLEASE NOTE THAT THE D117 TRAINING SUIT IS NOT FIRE RETARDANT.

Produced from 100% Protex and navy in colour, Deenside underwear is designed to provide an additional layer of protection and security to the wearer. Ideal for use in warm weather, the material can be dry cleaned, hand-washed or machine-washed. Available as a set or individually as long johns and crew necked long sleeve t-shirt.

D032 FIRE RETARDANT UNDERGLOVES

SIZE(S): ONE SIZE FITS ALL

This glove is flame retardant and is made of lightweight blended material. This navy glove is to be worn under a standard issue or protective leather glove.

D033 FINGERLESS FIRE RETARDANT UNDERGLOVE

SIZE(S): ONE SIZE FITS ALL

This glove is flame retardant and made of lightweight blended material. This navy glove is to be worn under standard issue or protective leather gloves.

D038 FIRE RETARDANT FULL-HOOD HEADOVER

SIZE(S): ONE SIZE FITS ALL

This headover is similar to the half-hood headover, except that it offers the traditional full-hood balaclava style. Ideal for use in warm weather, the material can be dry cleaned, hand or machine-washed.

D039 FIRE RETARDANT HALF-HOOD HEADOVER

SIZE(S): ONE SIZE FITS ALL

This headover is a half facemask and is designed in such a way so that it can be pulled over the head and left ready for use around the neck, acting as a scarf. When necessary, it can be fitted rapidly back onto the face should the incident require the protection. Ideal for use in warm weather, the material can be dry cleaned, hand or machine-washed.

NATIONAL POLICE FRAMEWORK AGREEMENT

SWIVELLING PLASTIC HOLDER BH-34 OR BH-35 ENABLES:

It is possible to supply the original variant of plastic holder BH-02 and BH-03 - upon the customer's wish.

PLASTIC HOLDER BH-02 ENABLES:

Very quick drawing of the baton with one hand, since thanks to the design of the holder after unfastening of the nylon securing strap there is almost no friction

Possibility of modification of size of aperture for the belt by cutting the dividers and thus inclination of the holder forward or backward as needed

Holder with unfastened nylon strap enables carrying of expanded baton

D051 DEENSIDE EXPANDABLE FRICTION LOCK BATONS

COLOUR: BLACK OR NICKEL
SIZES: 16, 18, 21, 23, 26 INCH

High Quality hardened professional Police batons. All batons are supplied with the BH-34 or BH-35 quick release polyamide holder that allows 360 degree rotation.

Secure anti slip baton handle.

Hardened Steel shafts.

Black or Chrome finish.

360 polyamide quick release holder.

Fully guaranteed.

EXPANDABLE BATONS HARDENED

Type: ExB-26H, ExB-23H, ExB-21H/HT/HE, ExB-18H/HE, ExB-16H/HE.

Expandable batons 26", 23", 21", 18" and 16" in HARDENED version.

These hardened batons have expandable tubes, which are made from a more superior material, which is hardened by heat treatment. Three types of handles are available - anti-slip handle with indented - rough surface of the type "H" or gentler surface of the type "HT" (this design expressively decreases any possibility of the baton being yanked from the hand and gives the user a comfortable grip) or ergonomic handle of the type "HE" with pleasant smooth surface. The batons are highly resistant vibration if the baton is exposed to a hard strike. They meet the requirements of the German standard for expandable batons and are intended for professional use by police and other authorities. Surface finish is black nickel-zinc (with good resistance to abrasion), or white chrome.

All hardened expandable batons are supplied with SWIVELLING plastic holder BH-34 or BH-35, for which European patent was granted (EP 1832834):

BH-34: lengths of batons 16", 18" and 21"

BH-35: lengths of batons 23" and 26"

BH-35-2 HOLDER

Added safety stud for added baton retention and security.

ANTI-SLIP HANDLE

ERGONOMIC HANDLE

D051 ACCESSORIES FOR EXPANDABLE FRICTION LOCK BATONS

BL-01 OR BL-02 ADDITIONAL FLASHLIGHT FOR THE TELESCOPIC BATON

It is possible to deliver as an option to the telescopic baton an additional flashlight of the type BL - 01 or BL - 02. It can be used as independent flashlight. High luminous intensity thanks to 3 LED diodes. Locking of end position (ON -OFF). Duration of lighting up to 250 hours for the type BL-01, up to 80 hours for the type BL-02. Power supply: 6 pcs of lithium battery of the type CR 2032 for the type BL-01, 2 pcs for the type BL-02. Service life of LED diodes is 100 000 hours. Waterproof duralumin body. Frontal glass made of polyamide.

BNS-01 OR BNS-02 NIGHT POLICE SET FOR EXPANDABLE BATON

Flashlight BL-01 or BL-02 makes it possible to create so called "Night police set for the Baton" consisting of plastic red signal cone, BL-01 or BL-02 flashlight and nylon pouch with flexible metallic clip for fastening on a belt. Alternatively it can be to equipment using the M.O.L.L.E. system. The main advantage of this solution is in the fact that the signal cone does not take any extra space in the pouch as the flashlight is inserted into it. At the same time it strengthens the pouch and increases the protection of the flashlight. The cone is open at its top, which enables normal use of the flashlight for lighting with white light without the necessity of removing the cone (checking of documents, checking interior of a vehicle, etc.). Extremely useful tool, not only for traffic police.

BNS-01 Night police set for Expandable Baton
BNS-02 Night police set for Expandable Baton

M-2 OR M-3 ADDITIONAL TACTICAL MIRROR FOR THE TELESCOPIC BATON

Telescopic batons can be fitted with additional tactical mirrors of two sizes. These mirrors will enable you for example to determine presence of an aggressor behind the corner or in the room to be entered. The mirror is equipped with a clip for easy fitting on the baton.

Diameters of reflective surface:
Type M-2: diameter 71 mm (2 3/4")
Type M-3: diameter 92 mm (3 2/3")

M-2 OR M-3 NYLON HOLDER FOR THE TACTICAL MIRROR

Nylon holder - which can be supplied as an option, protects the mirror against damage and enables its wearing on the belt. Holder is equipped with strong metallic clip, which enables its fast fixation on a belt (without unbuckling it) or to a tactical vest. It can be alternatively fastened also to the supporting M.O.L.L.E. system.

The variants M - 2 - 18 and M - 3 - 18 have been designed for use on the batons with tube diameter 18 mm, e.g. Bonowi EKA - Einsatzstock.

BE-01 SUPPLEMENTARY EXPANDABLE BATON'S CONICAL RUBBER ENDING WITH A JUT

It is also possible to supply a special large ending for the handle to increase the grip of baton even further. This ending has a specially curved shape, which allows the user to strike adversary with the other side of baton. This is advantageous in situations where a confined space makes it impossible to fully open the baton and use it. The ending is supplied separately or on request for a complete baton.

BE-02 SUPPLEMENTARY EXPANDABLE BATON'S HARDENED STEEL ENDING

It is also possible to supply a special steel hardened ending of the handle for expandable batons, which makes it possible to use it as an impact tool, e.g. for breaking of windows or as an improvised hammer.

BE-03 EXPANDABLE BATON ENDING WITH CROWBAR

Baton cap in the form of small crowbar is designated particularly for use by police and rescue teams. It can be easily mounted on the baton after unscrewing its original cap. In this manner it is possible to rapidly create in emergency situations an alternate tool for levering of locks and hasps etc. The opposite side of the crowbar head can also be used as a hammer.

Dimensions: 80x28mm, weight 215g.

BE-04 EXPANDABLE BATON ENDING WITH A HIDDEN SPIKE

This rubber ending with a hidden spike is useful especially in emergency cases for the destruction of obstacles made of glass, for example during car accidents or police interventions. The special hard and highly resistant spike (tungsten carbide) is safely hidden in the ending right beneath the rubber surface. It reliably shatters glass even when limited force is applied. The ending can be easily mounted onto an expandable baton in the place of the standard ending.

BWB-01 SPECIAL IMPACT EXTENSION - BATON WINDOW BREAKER

Mounting of this tool on the baton is extremely quick and easy. It is designed for forcible entries into property and vehicles during police interventions and rescue operations. The head is made of high quality hardened steel and it is equipped with a plastic fixing centre. As an option it is possible to purchase a special pouch with metallic clip BBH-01.

Dimensions: diameter 48 x 56 mm, weight 235 g.

BBH-01 NYLON HOLDER FOR SPECIAL IMPACT ENDING BWB-01

It is also possible to supply a special steel hardened ending of the handle for expandable batons, which makes it possible to use it as an impact tool, e.g. for breaking of windows or as an improvised hammer.

BCB-01 CROWBAR FOR EXPANDABLE BATON

The crowbar is designated for use by police or rescue teams. It can be easily mounted on the baton after unscrewing its original ending. In this manner it is possible to create in emergency situations very rapidly an alternate tool for forced entry into the object, for levering of hinges and locks, removal of nails, hammering or for rescuing of persons from vehicles. Version for armed services is equipped moreover with side protrusions, which serves for breaking of inserts of ordinary locks.

Dimensions: 170x48mm, weight 850g.

BCH-01 HOLDER FOR THE CROWBAR BCB-01

This special nylon holder serves for storage of the crowbar for the baton BCB-01. Top tiltable flap equipped with fixing Velcro straps protects the user from the sharp edge of the crowbar during transport. Rear part of the holder is equipped with reinforced straps and it is accommodated for placing the whole set both on service belt, or on tactical vest equipped with the M.O.L.L.E system.

BA-01 AXE FOR EXPANDABLE BATON

Rescue axe is a tool designated particularly for use by police or rescue teams. It can be easily mounted on the baton after unscrewing its original ending. In this manner it is possible to create in emergency situations very rapidly an alternate multi-function tool - it can be used for chopping, hammering, levering, etc. It can also be used for rescuing of persons from vehicles or for removal of fallen branches, etc.

Dimensions: 115x80mm, weight 560g.

BS-01 SHOVEL FOR EXPANDABLE BATON

This tool can be easily mounted on the baton after unscrewing its original ending. In this manner it is possible to create in emergency situations very rapidly an alternate tool increasing the possibilities of using Deenside expandable baton. This shovel was created for Army and Police Forces, rescue teams, but also for anybody who may need to free off a stuck car for example. Body of the hand shovel is made of hardened steel, edges of the shovel are sharpened and cutting. The shovel can be mounted on the baton in two blocked positions. Fully opened, it can be used like normal shovel, spade or axe for cutting wood or to clear undergrowth. When blocked at right angle, it can be used as a pickaxe.

Dimensions: 230 x 150 mm, weight 720 g.

BCT-01 CUTTER FOR EXPANDABLE BATON

Cutter for expandable baton which represents a comparatively compact accessory, which can be easily placed on a service vest. When combined with two expandable batons, it creates very quickly a fully operational cutter, which would be otherwise too heavy and encumbering to be taken to operations. It serves as useful aid at many interventions, military or rescue scenarios. It can help for example to make a passage through high fence or to overcome an obstacle made of barbed wire. The maximum diameter of (non-hardened) wire it can cut is 6 mm. Mass without batons is 640g, length 185mm

AH-01 MULTI-FUNCTIONAL HANDLE FOR BATON'S ACCESSORIES

This multi-functional handle makes it possible to use numerous accessories designed for the expandable baton. The handle has the same thread at both ends, which enables mounting of the whole series of accessories, such as additional flashlights BL-01 and BL-02, shovel BS-01, crowbar BCB-01, hammer BE-03, ending with special hard spike BE-04 or axe BA-01. It can be used also as the second handle for the wire-cutters BCT-01. Combination of this handle with various accessories makes it possible to create very easily and quickly a whole range of useful tools without the associated weight of many separate dedicated items.

ADDITIONAL HAND STRAP FOR THE TELESCOPIC BATON - TYPE EXB

We can supply an additional hand strap. The strap can be easily inserted under the screw-on ending. The baton can be thus used with or without the hand strap - as needed.

D710/000 TRAINING SHOCK ABSORBING STRIKE SHIELDS

SIZE: WIDTH 500 MM, HEIGHT 700 MM,
DEPTH 100 MM
WEIGHT: 2.9 KG

D710/001 TRAINING SHOCK ABSORBING STRIKE SHIELDS

SIZE: WIDTH 600 MM, HEIGHT 950 MM,
DEPTH 100 MM
WEIGHT: 4.7 KG

These shields have been designed for baton and tonfa training use. They absorb even very powerful strikes comfortably. The covering cloth is made of highly damage resistant material. It can withstand not only hits of training batons or training tonfas, but also hits of hardened steel batons, police tonfas or classical/side handle batons etc.

D280 CAMLOCK BATON

LENGTH: 16" / 21" / 26"

The Camlock baton offers substantial benefits over other batons for deployment, effectiveness and comfort. The baton can either be pulled out or it opens with a flick of the wrist. It is closed by pushing together the 3 parts after pressing the button on the end of the handle. It has a synthetic grip material and rubber parts between the single baton parts are shock absorbing. No grinding noise or clattering. 100% lock out 100% of the time. Fully guaranteed.

The balance and strike dynamics of the CAMLOCK enables an Officer to carry out less strikes to stop an assailant. This is a great benefit to batons with a smaller radius shaft dimension. Less strikes = less injuries whilst still achieving the desired results.

Camlock is unique in so much as it can be passively racked in sensitive situations thereby defusing the situation. This is a benefit when it is necessary to keep the incident relatively low key and a more aggressive rack of the baton would be inappropriate for the situation. The Camlock can be racked direct from the baton holder.

Baton can be collapsed and put away very discreetly again aiding in the defusing of situations. This is a great advantage for PR and public image. Old style friction-lock batons are often left extended for long periods because Officers have no suitable surface on which to collapse their batons.

Baton can be racked aggressively when a deterrent approach is called for. The ability to slide through the different levels of force available to an Officer cannot be overstated. Different options allow for different outcomes to situations

Baton can be collapsed by the push of a button maintaining the integrity of the baton without the risk of damage to either the baton or property associated with collapsing friction-lock batons.].

D283 SECURITY GRIP ENDING

The security grip ending is attached and removed without the need for tools. The ending holds the baton firmly in the hand during all baton strikes. The ending revolves and moves with the hand and baton which aids a fluid strike motion.

D281B CAMLOCK HOLDER

This product is used in conjunction with D280 Camlock baton. We can custom-build holders to clients' particular needs and requirements.

PLEASE CONTACT DEENSIDE FOR FURTHER INFORMATION.

D281H1 H1 HOLSTER WITH GLASS BREAKER

The H1/K1 holster system is modular by design. The CAMLOCK 16", 21" and 26" are available both as open shell holsters and as closed sheaths. 3 different systems are available for attachment to a belt, catering for all requirements and fields of application. In each case the rotating mechanism is a spring-loaded latch which can be turned through a maximum 180° in 30 steps and can thus be worn to the left or right.

The H1 holster can be rotated 180° in an axial direction by pulling the holster shell. The holster shell can ratchet in 30 steps using spring force. The security strap with 'thumb snap' can be reversed via the rear slot, in order to facilitate wear on the left or right. The EKA locks into the lower plastic clip with gentle pressure. From this position it can be pulled forward and broken out or drawn up and out, whereby the second action results in automatic extension. Pane strike ring. The glass breaker ring is screwed onto the bottom end of the holster and can be attached to the end of the

D721 H3 HOLSTER FOR 21" CAMLOCK BATON

Designed for the 21" Camlock Baton.

Injection Moulded Polymer with rotating and opening belt loop.

For belts 4mm to 5mm thickness and 3.5cm to 6cm in height (size is adjustable).

FULL CAMLOCK INSTRUCTORS TRAINING COURSE, SUPPORT MANUAL AND DVD ALSO AVAILABLE. EMAIL DEENSIDE LTD FOR MORE INFORMATION SALES@DEENSIDE.CO.UK

UK POLICE ARE ABLE TO ORDER THE CAMLOCK BATON VIA THE EXISTING NATIONAL POLICE CONTRACT AWARD.

D050 PR24 SIDE HANDLE BATON

COLOUR: BLACK
SIZE: LENGTH 23,2" (590 MM)
WEIGHT: 610 G

During its development, we co-operated with experts on handling tonfas from several EU countries. We have fully implemented their experiences gained in the training and the requirements of police work into the shape of this baton/tonfa.

1. The straight handle of this tonfa is equipped with grooves for a better grip and there is a head on its end to prevent it from being snatched out of hand.
2. The button-shaped end of the lateral handle ensures a firm grip and rotation of the tonfa, a point at the end of the button makes it possible to use it as an effective hammer; for example, for smashing glass, etc.
3. The bottom part of the tonfa's body is flat so that the tonfa fits perfectly in hand (and does not slip out). At the same time, when the stroke is directed against the forearm, its power is distributed over a larger surface.
4. The material used is high strength polycarbonate.

Unbreakable polyamide (nylon) holder with nylon textile strap. Leather holster on request (additional charge) available.

D047 TRAINING BATON

The Deenside training baton has been designed to reduce injury potential while allowing for dynamic, high level simulations.

D049 STRAIGHT BATON (RUBBER HANDLE)

SIZES: 25/63, 27/68, 29/73, 31/78, 34/86

Manufactured from rigid black nylon rod or tube depending on type, the range is available in lightweight or solid versions and in a choice of lengths to suit various operational requirements. With high impact strength and long term fatigue resistance the baton range is known for its outstanding toughness.

PRODUCED LENGTHS
INCH/CM:
25/63, 27/68,
29/73, 31/78

D046 LONG BATON

COLOUR: BLACK
SIZE: LENGTH 660MM, WIDTH 30MM
WEIGHT: 500G APPROX

Constructed from a rigid plastic with a ribbed grip, 110mm long, below the cord wrist strap. The cord wrist strap is fed through a small hole in the top of the baton. The baton also has a rubber ring to hold the baton in the retaining ring of the baton holder.

NOTE: CAN BE USED WITH DEENSIDE LONG BATON HOLDER (PRODUCT CODE D120)

D120 LONG BATON HOLDER WITH RING

The Deenside Long Baton Holder is designed to hold a long baton product code D046. Manufactured from heavy duty leather and designed to fit up to a 2" belt. The holder enables quick and easy access to the baton with a Velcro® fastened opening. The baton sits in a metal ring below the holder. All joints on the leather are riveted for extra strength.

DEENSIDE
CIVIL & MILITARY PROTECTIVE EQUIPMENT

D453 MODULAR BALLISTIC VEST SYSTEM

WEIGHT: 4.50-5.00 KGS

The Deenside Modular Ballistic Vest (MBV) can be supplied with a wide variety of armour inserts with soft armour protection up to NIJ IIIA, plus a range of hard armour plate inserts for front, back and side coverage, upgrading the protection to NIJ IV 7.62mm Multi Strike.

This unique vest has been designed by experts in multidisciplinary combat rolls and is widely considered to be one of the most versatile systems available today.

BALLISTIC VEST FEATURES

Upgradable Ballistic Neck, Groin & Upper Arm Protection NIJ IIIA which can be applied or removed without the need to remove the vest

Ballistic protective area of: 0.55-0.63m²

Molle webbing offers the user multi directional placement of their equipment pouches so the vest can be customised for a wide variety of operation.

Quick release pouches: we have developed a very innovative pouch system allowing the user to quickly and quietly gain access to their vital equipment.

Low Profile Hydration System: Low profile stay flat hydration system contained in a rear pocket of the vest.

Heavy Duty Extraction Handle

Wide selection of Operational Pouches & Dump Bags

Optional Quick Release System

All camouflage colours and styles are available (Minimum Order)

AVAILABLE COLOURS

D646 ACH/ MICH BALLISTIC HELMET

The Deenside Advanced Combat Helmet (ACH/ MICH) delivers advanced ballistic, fragmentation, and impact head protection, with unsurpassed comfort for long-term use. The helmet's low-profile design reduces the risk of interference in target acquisition and ensures compatibility with NVGs (night-vision goggles), Deenside Gas Masks.

D646 BALLISTIC VISOR

Deenside Ballistic Visor is 20mm polycarbonate interlayer, designed to offer entire facial protection from the helmet rim to below the chin area, against multiple hits of ballistic threats, as well as fragmentation and blunt impact. The Visor can be retro fitted to any Deenside Ballistic Helmet.

D589 GOGGLES

COLOUR: VARIOUS

Material: polycarbonate. Tactical & Riot protective lens, wind-proof, fragment-resistant, used for shooting and also suitable for army activities or war games. US style, comfortable for wearing, and size is adjusted by elastic. With one additional lens for changing.

D646 PASGT BALLISTIC HELMET

The Deenside PASGT Helmet is specifically designed for Law Enforcement personnel. To this end the materials and manufacturing have been tailored to offer excellent bullet resistance with minimal back face deformation. Deenside PASGT Ballistic Helmet uses the same outer shape as the US military helmet but applies new materials technology which not only increases its performance but reduces its weight. The harness is a brand new which offers superior stability and comfort.

Ballistic performance to NIJ IIIA.

Very high fragmentation protection with a V50 well over 2150 ft/sec (650 m/sec.)

UHD moulding technology with blunt trauma up to 50% less than conventional products.

Lighter weight - at least 15% less than standard products.

Superior comfort with the latest internal harness design.

Reduced number of fixing points.

Improved head stability with a unique 4 point harness.

Shock absorption against low velocity impacts

D734 DEENSIDE BALLISTIC GLASSES

The New Deenside Ballistic eye protection (BEP) is one of the top performing impact glasses available.

Deenside Ballistic eye protection (BEP) has been designed specifically for Police & Military professionals.

The glasses have a lightweight and durable frame with unique adjustable arms to ensure a perfect fit for all head sizes making the system compatible with hearing protection and communications headsets, while the lens provides optimum high impact protection with flawless optics and anti-fog performance.

Unique adjustable arms to ensure a perfect fit for all head sizes making the system compatible with hearing protection and communications headsets.

Deenside Ballistic Glasses have passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV. Laser, polarized and other specialty lenses available by special order.

D070 EQUIPMENT BAG 80L

COLOUR: BLACK
SIZE: L 810MM, W 430MM, H 355MM

This shower resistant kitbag holds an enormous amount of equipment and is suitable both to military and police personnel. The bag is manufactured from a CoRdura material and benefits from 8 external bellowed deep pockets with a zipped fastening. A D Zip around the top of the bag allows full access to equipment inside.

The three methods of carrying the load - by hand, shoulder or using the rucksack straps - offers enough variation to ensure that this kit bag is the best solution rapid mobilization. A padded style top designed for comfort when using the bag as a rucksack.

The shoulder straps are 5cm wide and can be adjusted to suit each individual.

SPECIAL FEATURES:

- Adjustable Handle Straps
- 3 Methods of Carrying
- Durable Water Resistant Material
- 8 Large Bellowed External Compartments

D116 SMALL EQUIPMENT BAG

SIZE: 11" HIGH X 10" WIDE X 14" LONG
COLOUR: BLACK

This compact lockable bag is ideal for refreshments, escorts and special operations when small items of equipment need to be readily available. It has a 'D' opening for easy access, two large external zip pockets and two Velcro fastening pouch pockets. As with all Deenside equipment bags, it is made of a heavy-duty waterproof material and has 2" wide webbing straps/handles, which are stitched around the circumference of the bag for durability and weight carrying capability. In addition this bag also has a detachable shoulder strap 1.25" wide x 22" long. The bag is fitted with two identification envelopes, one on the 'D' flap and one at the end.

D179 2FT SHIELD CARRYING BAG

COLOUR: BLACK

This bag has been designed to carry round or square shields. Constructed from a heavy-duty water resistant material, with heavy duty zipped top opening, two carry handles and a shoulder strap. Ideal for covert operations and for protecting the shield blades from being scratched either in transit or storage.

D181 4FT SHIELD CARRYING BAG

COLOUR: BLACK

This bag has been designed for 3/4 or intermediate shields. Constructed from a heavy-duty water resistant material, with heavy duty zipped side openings, two carry handles and a shoulder strap. Ideal for covert operations and for protecting the shield blades from being scratched either in transit or storage.

D025 BOOT BAG

Waterproof, heavy duty nylon boot bag, fits full range of Deenside boots and shoes. Keep your dirty boots off your clean kit.

D076 HELMET BAG

SIZE: 29" LONG X 18" WIDE
COLOUR: NAVY

Specifically designed to give basic protection to both the helmet and visor from superficial damage, such as scratches, when in transit or storage. The helmet bag can also be produced with your force name or any other script you require printed on for an additional charge. Quotes available on request. The bag is made in polycotton, with a nylon pull cord.

D060 PRISONER ESCORT / BEDWATCH BAG

SIZE: 36CM X 15CM X 26CM APPROX
COLOUR: BLACK

A specially designed and produced bag for safe secure storage and transportation of documents and equipment when escorting prisoners or attending bedwatches etc. Exclusive to Deenside the bag has many unique features that make this product the only realistic choice for Public and Private Prison Service use. Only the best materials used throughout giving an extremely robust product.

- Exclusive to Deenside Ltd.
- Designed in consultation with HMP staff.
- Specifically engineered for secure transport of documents, equipment and restraints.
- Compact, durable, easy to store and carry.
- High quality, high strength materials. Top quality SBS zips and 1200D Nylon used throughout.
- Exceptional value for money.

See website for full specification.

**D144 WATER BOTTLE ONLY (0.6LTR)****COLOUR:** BLUE

Of Swiss origin, the bottles are cylindrical and made in one-piece extruded aluminium, lightweight and strong, with a screw-in leakproof stopper. The bottles have a hygienic interior coating which prevents odours and tainting of contents and is also resistant to fruit acids and isotonic drinks.

D144 WATER BOTTLE ONLY (0.6LTR)**D054 BOTTLE AND HOLDER (0.6 LTR)****D160 WATER BOTTLE ONLY (1.0LTR)**

Of Swiss origin, the bottles are cylindrical made in one-piece extruded aluminium, lightweight and strong, with a screw-in leak proof stopper. The bottles have a hygienic interior coating which prevents odours and tainting of contents and is also resistant to fruit acids and isotonic drinks.

D153 NYLON DISPOSABLE CUFFS

High strength disposable nylon cuffs. Training in red that can be re-used. Black for covert and yellow for high visibility. HK cutter for nylon cuffs. The HK cutter easily cuts through nylon/plastic cuffs, seat belts and other material. Belt mounted carrying pouch for 3,6 or 9 cuffs available on request.

D380 TRI-FOLD DISPOSABLE CUFF

SP Tri-Fold disposable restraints are the most tactically advanced disposable restraints available. They have extreme strength with a smooth pull.

ASP Tri-Fold disposable restraints are compact, easily carried, and rapidly applied. Specifically designed to law enforcement standards, their wide straps have no sharp edges. Their most important feature is that they fold away discreetly, unlike normal plasticuff restraints that hang in a loop from the belt.

Restraint ring included.

D381 SCAROB CUTTER

Asp Tri-Fold Restraint Scarab cutters are compact, easily carried, lightweight and specifically designed for disposable restraints. They will cut through Asp Tri-folds and any other disposable restraint / plasticuff.

FOR THE VERY BEST IN PERSONAL
PROTECTIVE EQUIPMENT FOR CIVIL
AND MILITARY NEEDS

TYPE B

THE COMPLETE RESTRAINT SYSTEM

TYPE A

TYPE C

THE WAIST RESTRAINT BELT HAS EVOLVED INLINE WITH THE NEEDS OF PROFESSIONAL USERS WITH CONSIDERATION TO THE PSYCHOLOGY OF THE RESTRAINED SUBJECT. IT ALLOWS GREATLY ENHANCED SAFETY FOR THE ESCORT AND THE SUBJECT WHILST REDUCING THE LIABILITY RISK. MADE WHOLLY IN THE UK, THE WAIST RESTRAINT BELT USES TOP QUALITY MATERIALS. MOD APPROVED MANUFACTURING AND QUALITY ASSURANCE PROCESSES, ENSURE THAT THE WRB WILL MEET STRENUOUS USER REQUIREMENTS.

ADVANTAGES

- Presents a low visual profile when in use
- Ease and speed of application aided by colour coded parts.
- Lightweight but Secure
- Avoids controversial posture positions
- Variable levels of restraint to allow for processing, transport, medical procedures, eating, bathroom needs, etc
- No metallic parts in Type A for ease of scanning after being searched & secured
- No metallic parts in Type A aid restraint in medical procedures involving X rays and MRI scanners
- Maximum security position precludes the chance of being able to pick up & secrete anything
- Hook & Loop system being tampered with, alerts escorts if attempts to escape are being made
- Added security by use of handcuff on Type B
- Two types of waist fastening to suit the needs of the organisation

OPTIONS

TYPE A	TYPE B	TYPE C
<p>No metallic parts - For use with metal detectors at airports or medical processes</p> <p>Fabric cuffs - For use with subjects that self harm or where use of conventional handcuffs is not acceptable</p> <p>All WRB are easily cleaned & sanitized by machine washing</p> <p>Waist buckle can be replaced with lockable buckle</p> <p>Uses standard key used by UK police forces</p>	<p>Two methods of constraint in one. Fabric wrist cuffs from Type A can be replaced with handcuff bracelets for added security</p> <p>Standard TCH handcuff bracelets are used or can be fitted with handcuffs to the users specification</p> <p>Wristcuffs or handcuffs are secured by a high breaking strain D shackle. Shackle tightening and standard handcuff keys are supplied</p> <p>D shackle type can be can be changed from standard pin to hexagonal key or crosshead pin</p>	<p>As Type B but D shackle omitted and handcuffs permanently fixed to pull straps</p> <p>If required, high strength hook and loop fastening can be used for the waist belt rather than the buckle method</p> <p>This method of fastening can be specified on all types</p>

LEG RESTRAINT SYSTEM ALSO AVAILABLE

**D725 510 T TACTICAL GOGGLE**

A protective tactical goggle designed to specifically address the needs of a tactical operation. Dual polycarbonate lens injection molded for superior optical qualities; an outer lens that has been hard coated and an inner lens that is anti-fog treated. Silicone frame with baffled top and bottom vents for chemical splash protection and elastic strap with quick release rear buckle which can be easily manipulated with gloved hands.

**D731 GEPEL TACTICAL GOGGLE**

A tactical goggle designed to seamlessly interface with helmets while the aspheric lens provides excellent peripheral vision. Dual lens with a hard coated optically corrected outer lens, a thermal spacer and an anti fog inner lens. The Combination of the even tension from the strap system, helmet compatible hinges, face foam and goggle shape creates a secure goggle fit without pressure points.

**D732 REPEL TACTICAL GOGGLE OLIVE GREEN**

A tactical goggle designed to seamlessly interface with helmets while the aspheric lens provides excellent peripheral vision. Dual lens with a hard coated optically corrected outer lens, a thermal spacer and an anti fog inner lens. The Combination of the even tension from the strap system, helmet compatible hinges, face foam and goggle shape creates a secure goggle fit without pressure points.

**D726 510 TF TACTICAL FRAGMENTATION GOGGLE**

Fragmentation goggle designed for extreme tactical operations. Triple lens with superior optical qualities; polycarbonate hard coated outer lens, centre fragmentation lens and an antifog inner spall lens. Silicone frame with baffled top and bottom vents for chemical splash protection and an elastic strap with quick release rear buckle which can be easily manipulated with gloved hands.

**D727 510 TFN TACTICAL GOGGLE FRAGMENTATION - NOSE SHIELD**

Fragmentation goggle designed for extreme tactical operations. Triple lens with superior optical qualities; polycarbonate hard coated outer lens, centre fragmentation lens and an anti-fog inner spall lens. Silicone frame with baffled top and bottom vents for chemical splash protection and an elastic strap with quick release rear buckle which can be easily manipulated with gloved hands.

**D728 L ADVANCE COMBAT GOGGLE**

Polycarbonate lens for Eye Protection - a revolution in the Tactical Personal Protective Market. The simple formula: less weight but better protection and no compromise in optical quality. The A.C.G is an extremely robust ballistic goggle for tactical operations.

**D730 REPEL TACTICAL GOGGLE**

A tactical goggle designed for the desert with all major entry points sealed to prevent sand or dust and seamlessly interfacing with helmets while the aspheric lens provides excellent peripheral vision. Dual lens with a hard coated optically corrected outer lens, a thermal spacer and an anti fog inner lens. The combination of the even tension from the strap system, helmet compatible hinges, face foam and goggle shape creates a secure goggle fit without pressure points.

**D729 ADVANCE COMBAT GOGGLE**

Nylon lens for Eye Protection - a revolution in the Tactical Personal Protective Market. The simple formula: less weight but better protection and no compromise in optical quality. The A.C.G is an extremely robust ballistic goggle for tactical operations.

**D734 DEENSIDE BALLISTIC GLASSES**

The New Deenside Ballistic eye protection (BEP) is one of the top performing impact glasses available.

Deenside Ballistic eye protection (BEP) has been designed specifically for Police & Military professionals.

The glasses have a lightweight and durable frame with unique adjustable arms to ensure a perfect fit for all head sizes making the system compatible with hearing protection and communications headsets, while the lens provides optimum high impact protection with flawless optics and anti-fog performance.

Unique adjustable arms to ensure a perfect fit for all head sizes making the system compatible with hearing protection and communications headsets.

Deenside Ballistic Glasses have passed stringent military optical tests for visual clarity. Easy-to-change high-impact lenses offer the ultimate defense against changing light conditions and harmful UV. Laser, polarized and other specialty lenses available by special order.

See website for full specification.

**D215 BARRACUDA
TACTICAL
POLICE FLASHLIGHT**

Police tactical duralumin flashlight designed in collaboration with leading security experts. It uses advanced powerful 3W LED diode (CREE chip) with extremely high luminous intensity (approx. 150 lm). Unbreakable frontal polycarbonate glass. Robust moisture resistant body of the flashlight has ergonomic shape, its grooved surface significantly enhances safe grip under any conditions. Strongly grooved head prevents rolling of the flashlight on smooth surface. Switch at the flashlight ending enables short lighting by light pushing the switch or permanent lighting after pushing the switch to the end stop. Locking against accidental lighting up is made by unscrewing the ending by 2 rotations. Frontal pyramidal points on the flashlight head can be used for alternative self-defence actions. A swivelling holder DXXX is available for comfortable carrying of the flashlight. Power supply is ensured by 2 pcs of lithium cells CR123A, which are already included in the price of the flashlight.

**D218 PLASTIC HOLDER
FOR TACTICAL
POLICE
FLASHLIGHTS**

Plastic holder is determined for professional use. The holder enables a quick drawing of the flashlight. The flashlight in horizontal or slightly inclined position can be used for permanent lighting in front of the user, freeing thus his hands.

**D216 HELIOS 3 TACTICAL
POLICE FLASHLIGHT**

Police tactical duralumin flashlight with advanced powerful 3W LED diode (CREE chip) with extremely high luminous intensity (approx. 150 lm). Chip performance is controlled electronically. Unbreakable frontal polycarbonate glass. It lightens an object with a sharp beam at a distance of approx. 150 m. The switch is on the flashlight bottom. Short light pressing on the switch serves for a momentary lighting of the target, full pressing ensures uninterrupted lighting. Locking against accidental lighting up is made by unscrewing the ending by 2 rotations. Robust moisture resistant body of the flashlight has ergonomic shape. Strongly grooved rubber head ring prevents rolling of the flashlight on smooth surface. A swivelling holder DXXX is available for comfortable carrying of the flashlight. Power supply is ensured by 2 pcs of lithium cells CR123A, which are already included in the price of the flashlight.

**D217 HELIOS 3 ULTRA
ZOOM TACTICAL
POLICE
FLASHLIGHT**

This version of HELIOS flashlight is fitted with a special lens that allows re-focusing between narrow and wide light beam. When narrow cone of light is used, it illuminates a surface with diameter of only 60 cm at a distance of 10 m! The flashlight can light an object with a sharp beam over a distance even of approx. 300 meters.

D660 PANTHER SEARCHLIGHT

The PANTHER XHP has now upgraded with the latest LED technology (XH-P) increasing the running time to 6hrs on full and 3hrs on half power. The unique deep dish reflector enables maximum distance to lumen ratio achieving a 1200m beam from only 1500 lumens; weighing under 1kg it is our lightest in the range and offers exceptional value for money.

High power rechargeable LED searchlight

1200 metre spot beam

Up to 1500 lumens

2 light modes: high & low

Battery charging indicator

Unique deep dish reflector

Robust construction

Long-life LED up to 50,000 hours

Lightweight Li-ion battery

D665 INFRARED FILTER

Fully covert infra-red filter.

D663 PROTECTIVE CARRY CASE

D661 IN CAR CHARGER

**D662 VEHICLE CHARGING
BRACKET**

D664 FILTERS

Red, amber, green and blue colour filters.

D195 UNDER VEHICLE SEARCH MIRROR (TROLLEY TYPE)

A wide-angle illuminated mirror mounted on castors and with a handle for searching the underside of vehicles. The convex mirror measures 330 x 265mm, and in the event of breakage is dispersal-resistant. Illumination is provided by 2 x 6 watt energy-efficient fluorescent lamps in a splash-proof acrylic housing, which may be un-clipped and used on the 2 metre lead as a search lamp. The handle-mounted switch has OFF, ON and MOMENTARY positions. The 950mm handles swings down to the horizontal for maximum reach under vehicles. Supplied with ten D size batteries fitted in to the handle tube - up to 8 hours of continuous use.

D210 SEARCH MIRROR

This detection mirror serves for inspection of hazardous or difficult to reach spaces and for tactical use. The angular parabolic shape is very advantageous as it greatly increases angle of observation. The mirror uses duralumin lightweight telescopic rod, the length of which can be adjusted from 500 mm to 1050 mm and then collapses back to compact dimensions. Anti-slip handle enables safe and secure grip. The mirror can be easily removed from the rod for transport.

D208 TELESCOPIC ARM/MIRROR

WEIGHT: 519G

A long reach telescopic arm with a 140mm convex glass mirror. The six-section arm extends to 1400mm and closes to 350mm for ease of carrying. A ball and socket joint on the mirror allows adjustment to the angle of view.

NOTE: LED LIGHT POD NOT SUPPLIED WITH THIS PRODUCT, LED LIGHT POD SOLD SEPARATELY.

QUALITY WITHOUT COMPROMISE

D196 GENERAL PURPOSE METAL DETECTOR

WEIGHT: 262G
SIZE: 365MM LONG X 55MM WIDE X 30MM DEEP

A metal detector for personnel search with an instant audible and visual alarm. Automatically adjusts for optimum performance to any target and is effective on all metals, including ferrous, non-ferrous and stainless steel, down to 0.1g. Low power consumption gives 12 months operation (daily use) on a single battery. High impact resistant black ABS case. Supplied with wrist strap and batteries.

D197 HIGH SENSITIVITY METAL DETECTOR

WEIGHT: 262G
SIZE: 365MM LONG X 55MM WIDE X 30MM DEEP

A more sensitive detector effective on metal objects down to 0.05g (ferrous, non-ferrous and stainless steel). Automatically adjusts for optimum performance to any target and signals with an audible/visual alarm or for more discreet detection a visual alarm only. Low power consumption gives 12 months operation (daily use) on a single battery. High impact resistant black ABS case. Supplied with wrist strap and batteries.

D198 DUAL PURPOSE METAL DETECTOR

WEIGHT: 213G
SIZE: 365MM LONG X 105MM WIDE X 35MM DEEP

A more versatile metal detector with two sensitivity setting. Set to normal sensitivity the detector is ideal for personnel search. Set to high sensitivity the detector becomes a general-purpose metal detector with a variable intensity control, capable of detecting extremely small objects. Other features include instant response to all metals, auto ranging and rugged ABS all weather construction. Supplied with wrist strap and batteries.

D428 FIST SUIT

DEENSIDE
CIVIL & MILITARY PROTECTIVE EQUIPMENT

THE #333 POLICE TRAINING SUIT IS THE MOST COMPREHENSIVE DEFENSIVE TACTICS SUIT EVER DEvised.

Its most outstanding characteristic is that it is capable of receiving blows from real weapons (PR-24, ESP Baton, etc.) at full power without endangering the trainer. This allows the officers in training to become accustomed to their street

weapons on a human target. It also gives the trainee the sense of timing, speed and weight that accompanies a real weapon. This can be very important in preventing injuries to both police officers and citizens.

THE FIST SUIT

The #333 is also extremely mobile. For this amount of protection it affords as much or more mobility than any other product on the market. With this mobility, the training officers can portray a more realistic scenario. This is also why the #333 is being used more and more in cell extractions.

The Fist #333 Police Training Suit is also very unique among all other training suits in that you are able to adapt it to your particular training regimen by using optional items that either attach with Velcro or tie onto the suit. For example, if you intend to do heavy punches or kicks to chest area, the chest adapter can be attached and the protection is doubled without any loss of mobility. There are optional add-ons for all major striking areas.

A very important advantage of the #333 is that it is made with an outer covering of DuPont Cordura® Nylon. This makes the suit virtually indestructible. The Velcro and elastic straps that are sewn on do not come off, and the suit does not tear or rip during rough treatment. This long

life durability has another side too. It costs much less over the long run to use Fist equipment. Buying the same equipment over and over can limit your variety of training.

Another innovation built into the #333 that makes it unique in the industry is the sectional ties that allow the suit to hang and be put on and taken off in one piece. Changing a one-piece suit can save time opposed to suits made in separate sections that must be placed and strapped individually.

The basic #333 consists of Chest and back, shoulder biceps, forearms, groin and butt, thighs, shins, helmet, and carry bag. The weight of the basic suit is approximately 15 lbs.

D674 / D672
36" / 30" BLACK HOOLIGAN TOOL

LENGTH: 36" (91CM) **WEIGHT:** 12.7LBS (5.8KG)
LENGTH: 30" (76CM) **WEIGHT:** 11.4LBS (5.2KG)
COLOURS: TACTICAL BLACK FINISH

For glass breaking, levering & puncturing. Single man operation. Tactical Black finish. Designed for the world's Police and Military personnel for outward opening doors, grilles, gates and windows. Smashing glass, tearing open padlock hasps or lifting floor boards - the Hooligan Tool can handle it all. With the head and claw forged from high alloy steel, heat treated for maximum strength, then fitted to a 2.5cm (1") stress proof bar this tool is virtually unbreakable.

D671 / D670
30" / 24" LIGHT HOOLIGAN TOOL

LENGTH: 30" (76CM) **WEIGHT:** 7.78LBS (3.5KG)
LENGTH: 24" (61CM) **WEIGHT:** 7.32LBS (3.3KG)
COLOUR: HIGH GLOSS CHROME FINISH

For glass breaking, levering & puncturing. Chrome finish. NEW Lightweight version of this most successful tool. Designed for the world's Fire and Rescue operations this tool is just as effective for Police and Military personnel for outward opening doors, grilles, gates and windows. Smashing glass, tearing open padlock hasps or lifting floor boards, the Hooligan Tool can handle it all. With the head and claw forged from high alloy steel, heat treated for maximum strength, then fitted to a 2.5cm (1") stress proof bar this tool is virtually unbreakable.

D669 FIRECRACKER

LENGTH: 46CM (18")
PACKAGING DIMENSIONS: 64CM X 20CM X 14CM
WEIGHT: 16KG (35LBS)
COLOUR: YELLOW

Single man operation. Shorter version of the Enforcer for fire and firearms applications. For inward opening doors. The Firecracker is the feisty sister of the Enforcer and has been specially designed with a shorter overall length for applications where size is really important, such as Firearm Teams and Fire and Rescue Services. The same weight and packing the same punch as the Enforcer, the Firecracker is the small but perfectly formed alternative.

D675 HOOLI' CARRYING STRAP

Made by the manufacturers of the world famous Hooligan Tool. Precision machined clamps ensure a perfect, non slip grip anywhere on the shaft of the tool. Heavy duty black nylon webbing with adjusting slides. The perfect accessory for the Hooli' Bar.

D667 DISRUPTER

WEIGHT: 18KG (40LBS)
COLOUR: COVERT BLACK
LENGTH: 58CM (23")
PACKAGING DIMENSIONS: 64CM X 20CM X 14CM

The natural successor to the Enforcer, the Disrupter takes over from the original and most respected door opener around. 18kg of hardened steel combined with a new improved design (with the front handle located further back) ensures that impacts are higher, more effective, and at the same time safer in use.

D220 ENFORCER DOOR OPENER

Designed and developed for the drug enforcement agencies, this latest model represents the most effective single item of equipment for rapid forced entry for all inward opening doors. Exhaustive tests and actual operations have shown that any door, except those specifically steel-reinforced, can be opened in 1-2 seconds. The weight load on the locks at the time of impact approaches the equivalent of 3 tons. The Enforcer is only 58cm (23") long and weighs 16Kg (35lbs). It is operated by a single person and can be concealed under a coat for covert operations.

D186 / D187 / D189
HOOLIGAN BAR 42" / 36" / 30"

WEIGHT: 5KG / 4.5KG / 4.1KG

This heavy-duty forcible entry tool was designed for officers operating in the presence of hazardous vapours and combustible residues. Manufactured from spark resistant material, it allows the officer to pound, puncture, pry, twist and cut metal like a large tin opener. The claw is gently curved for maximum prying leverage. The claw opening is parallel and will fit over locks, hasps and many gas shut offs.

D225 TWO-MAN RAM

LENGTH: 140CM (55") **WEIGHT:** 33KG (72LBS)

Manufactured as a direct result of customer demand, the two-man ram needs a lot of space in which to work effectively. If you have the room to operate then this tool's 33Kg can generate huge power to open any inward opening door. When it comes to sheer power this tool is the only answer.

D666 BABY RAM

LENGTH: 420MM (16")
WIDTH: 145MM (6")
HEIGHT: 173MM (7")
WEIGHT: 10.5KG (23LB)
COLOUR: YELLOW

Specifically designed for the Fire & Rescue Services where space is at a premium, the tool comes with all the proven features of the Enforcer family of rams. Only 16" long and weighing in at 10.5kg this 'petite' tool packs a punch that will surprise. Its size means that not only is it easy to stow but can be used in difficult conditions where other tools are just impossible to use. Never leave home without one!

D688 EUROPROFILE LOCK SNAPPER

WEIGHT: 0.8KG (1LB)
LENGTH: 30CM (12")
COLOUR: RED/SILVER
PACKAGING DIMENSIONS: 32CM X 10CM X 7CM

Single man operation. Simple & effective. For all doors with Europrofile/Chubb locks. An important development in the rapid opening of UPVC doors with minimal damage. Simple, fast and effective. Follow the 5 steps below and entry is assured! 1. Select end of the tool for type of lock. 2. Slide tool over lock. 3. With sharp, swift action snap lock. 4. Insert 'key' tool into lock engage cam mechanism. 5. Turn 'key' to unlock door with minimal damage.

D256 THE SUMO DOOR OPENER

This is the ultimate 'enforcer' type tool. Described as "only for the fit and experienced" and weighing in at 21Kg. Exhaustive tests and actual operations have shown that any door, except those specifically steel-reinforced, can be opened in 1-2 seconds. The weight load on the locks at the time of impact approaches the equivalent of 3 tons.

D689 EUROPROFILE LOCK SNAPPER KIT

WEIGHT: 6.5KG
COLOUR: BLACK
PACKAGING DIMENSIONS: 51CM X 20CM X 20CM

Complete kit in tool roll. Single man operation. Simple & effective. For all Europrofile/Chubb locks. An important development in the rapid opening of UPVC doors with minimal damage. Simple, fast and effective and entry is assured! The complete kit comprises: Europrofile lock snapper tool, 'Universal' key, mini sledge, mini axe, levering tool, long nosed angle pliers and screwdriver all packed in selected pockets of purpose made tool roll. Tool roll manufactured from hard wearing tactical black PVC nylon.

D692 TOOL BAG

LENGTH: 77CM (30.5")
WIDTH: 18CM (7")
WEIGHT: 1 KG (2.2LBS)
COLOUR: BLACK

Able to carry most tools. High quality material. Full length zip. Rivet reinforced at stress points. This well made general tool bag has been designed to carry a range of tools. The outers are very hard wearing with rivet reinforcing at stress points, and the rigid underlining reduces sagging when fully loaded. Material: heavy duty canvas.

WWW.DEENSIDE.CO.UK

FOR THE VERY BEST IN PERSONAL
 PROTECTIVE EQUIPMENT FOR CIVIL
 AND MILITARY NEEDS

**D081** PISTOL GRIP MEGAPHONE**POWER:** 8 X AA TYPE BATTERIES (NOT SUPPLIED)

Low cost loud hailer for basic requirements. All in one ABS construction with volume control and wrist strap. Output: 5 watts RMS/10 watts peak. Range: 0.5KM to 0.7KM depending on operating conditions.

**D082** PISTOL GRIP MEGAPHONE WITH HAND HELD MICROPHONE**POWER:** 8 X C TYPE BATTERIES (NOT SUPPLIED)
WEIGHT: 1.65KG APPROX, EXCLUDING BATTERIES

16-watt megaphone for hand held or shoulder slung use (strap supplied). Detachable anti-howl microphone on coiled lead with on-off switch and volume control. Metal and ABS construction. Output: 9 watts RMS/16 watts peak. Range: 0.5KM to 0.7KM depending on operating condition.

**D193** 1.0LTR AFFF FIRE EXTINGUISHER

This is a water-based extinguisher, which uses a multi-purpose aqueous film forming foam concentrate with water. It discharges as a spray of foam, which blankets the surface of the fire, smothering the flames. Being water based it also has a cooling effect. The foam has excellent adhesion qualities ensuring that it remains in position thus preventing re-ignition of the fire at a later stage. May be used on A and B class fires containing carbonaceous materials like paper, wood, straw or textiles, and also on fires involving flammable liquids, including leaded or unleaded petrol, diesel, oil, and fat. Suitable for use on fires involving live electrical equipment up to 1000v, and may be used on 12v and 24v vehicle electrical systems.

NOTE: MAY BE PURCHASED WITH LEATHER HOLDER AS OPTIONAL EXTRA (D201)

**D278** FOLD AWAY LIGATION KNIFE

The Deenside ligation knife can cut through most materials with extreme ease, including ropes, sheets, seat belts, clothing and shoelaces. This enables staff to rescue victims quickly and effectively and render assistance. This knife has a steel blade that locks in place firmly until released with a thumb button. Because of the configuration of the blade it is virtually impossible for the knife to be used as a weapon against staff. The handle is made of toughened black plastic and is 4" long. The ligation knife comes complete with nylon pouch. It has been approved for use in Custody Cells and HM Prisons. Paramedic and Fire/Rescue have also found the unit to be one of the best on the market today.

**D386** HI VIZ EPAULETS

Hi Viz Fire Retardant Epaulets have been designed for ease of use whilst training and operational. Very quick to add or remove from most overalls.

**DM077** CARABINA PAIRS 8MM BLACK

Clam packed.

**D201** HOLDER FOR AFFF FIRE EXTINGUISHER

Manufactured from heavy-duty leather and riveted for extra strength, this holder will fit all belts up to 2" wide. The fire extinguisher fits snugly into the sleeve of the holder and is secured by a stud fastener.

**D734** PATIENT HANDLING TRANSFER SHEET

The Transfer Sheet is a convenient, compact and cost-effective method of patient transport. The patient handling transfer sheet can be used to transport or transfer patients, or to rescue patients from areas inaccessible to stretchers. They are made from fluid-resistant, rugged, non-woven material that is machine washable. Each transfer sheet holds up to (1,500lbs) (680.4KG), measures (101.6 X 203.2CM) (40" x 80") and features 6 handles per side. The transfer sheet is grey with black handles and features pockets to secure a backboard and patients feet if required.
