

To Our Customers:

The defense of this country and the freedom it represents continues daily in both foreign lands and in our neighborhoods. It is the service and dedication of countless men and women that allow us our freedom. It is our mission to provide those people with quality, innovative, reliable and affordable products that allow them to perform their daily tasks in an efficient and safe manner. To those people who defend our freedom we say thank you.

Don Hume Leathergoods
A division of
Oklahoma Leather Products Inc.

Important Consumer Information

These warnings should be read prior to the use of Don Hume products. All firearms are potentially dangerous weapons. Use of a handgun under any conditions may be dangerous. Serious personal injury or even death could occur without proper training in the safe handling of firearms by an accredited firearms safety course. No person should handle any firearm unless such person has successfully passed an accredited firearms safety program. Great care should be used when handling, storing or transporting firearms, or when placing or removing a handgun from your Don Hume holster. Never place a loaded handgun in a holster without first testing for proper fit with the handgun in an unloaded condition. It is the user's responsibility to exercise extreme caution when handling or carrying any handgun and to assume at all times that the gun is loaded. Do not attempt to cock a handgun while it is in the holster. Cocking the weapon while holstered can cause damage to the holster, gun or both, and may cause an accidental discharge. Carrying some models of the semi-auto pistol in the "cocked and locked" condition (also known as condition 1) is reserved only for the most advanced, experienced and skilled professional shooters. In this condition, the safety is always engaged. This condition is designed to draw and fire the weapon under extremely short time constraints. Carrying a handgun in this condition increases the risk of accidental discharge. It should be used by those who have training and experience to recognize the inherent risks associated with it.

Don Hume holsters are designed to fit factory-equipped handguns. The use of trigger shoes or grip adapters or any modifications to the handgun may cause improper holster fit and accidental discharge. All Don Hume holsters are designed to function safely and are made for specific handguns. Any alteration to the holster or using a gun the holster was not made for could also render an unsafe condition. It is the user's responsibility to personally check for holster/handgun compatibility using actual products. It is also the user's responsibility to periodically check the holster and its hardware (snaps), not manufactured by Don Hume, for proper fit and function. Should any Don Hume product become worn, loose, broken, defective or ill-fitting, cease use immediately.

Please be certain that your gun is securely seated in the holster before use. Keep thumb on back of hammer or slide when inserting handgun in holster to help assure no movement occurs during insertion. Keep fingers clear of trigger when drawing or replacing handgun in holster. For maximum safety, holster retaining straps must be used when provided. During vigorous physical activity, such as running, the gun should be held in place with your hand to prevent the gun from falling from the holster. We strongly recommend a regular practice routine be utilized to assure the continued capabilities of both product and user.

Schedule
GS-07F-8912D

Our leather products are finished with a pigmented acrylic and top coated with a clear lacquer. It is easy to maintain by applying a light coat of LEATHER BALM/LOTION. Use a dry cloth to apply, let dry, then buff off. LEATHER BALM/ LOTION can be found at most shoe stores or discount stores.

The nylon products are low maintenance and easy to clean. In most cases lukewarm water and a mild detergent should work. Be sure to pat off excess water and air dry. NEVER MACHINE WASH OR DRY.

HOW TO MEASURE YOUR BARREL LENGTH?

REVOLVERS

MEASURE FROM FRONT OF CYLINDER
TO END OF BARREL.

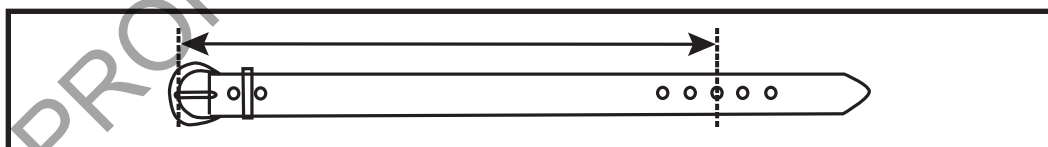

SEMI-AUTOMATICS

MEASURE FROM FACE OF EJECTION
PORT TO THE END OF BARREL.

HOW TO DETERMINE YOUR BELT SIZE

Our belts are made in even sizes to the center hole.

[illegible]

H746-SH

LEVEL THREE SECURITY - AUTOMATICS

H746-SH Security style holster rides slightly muzzle forward and gives you three points of retention. The thumb break over the hammer, middle finger release at the trigger guard and the security blocks which retain the weapon until the gun is rocked forward and a natural draw is executed. This holster is leather lined and has a polyethylene layer to add strength. Has an open bottom, partially closed front, has a metal reinforced belt loop bent to contour with the hip and a belt tension screw. This design requires practice, it is suggested you become familiar with this holster to make a smooth and timely draw. Available in Black: *Finish- Plain, Basketweave & Clarino.*

Semi
Closed
Front

T FORCE-3 D.S.

LEVEL THREE PLUS SECURITY TWIST AND DRAW

Same as our popular T-Force level two plus, but we have made this holster into a level three plus by adding a middle finger release, safe and secure. Available in Black: *Finish - Plain, Basketweave & Clarino.*

T FORCE D.S.

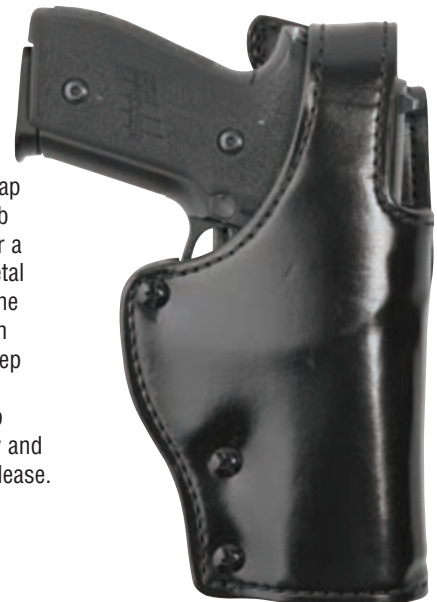

LEVEL TWO PLUS SECURITY TWIST AND DRAW

T Force D.S., a top draw security holster with a nylon reinforced over the hammer safety strap and features our low profile thumb break with a hard action dot snap. This low profile thumb break makes it more difficult for an adversary to release the safety strap, but allows the user a smooth fast release. The holster has a nylon sight tunnel, metal reinforced mid-ride drop loop with locking screw bent to fit the hip. A polyethylene layer for added rigidity, leather lined, open bottom, covered trigger guard with a reinforced overlay to keep the mouth of holster open for easy reholstering. To draw the weapon obtain a shooters grip, activate the low profile thumb break. Slightly twist the grip of the weapon toward your body and up, this will release the acrylic thermoplastic trigger guard release. With a little practice this security feature becomes fast and smooth. Available in Black. *Finish- Plain, Basketweave & Clarino.*

Kydex reinforced

Trigger guard release

H740-SH

LEVEL TWO SECURITY - AUTOMATICS

The H740-SH features the low profile thumb break with wrap around front safety strap, metal reinforced belt loop with tension screw, security blocks, closed bottom. The partially open front is metal reinforced. Holster is full leather lined and has a polyethylene layer to add strength. Available in Black: *Finish - Plain, Basketweave & Clarino.*

H745-SH

LEVEL TWO SECURITY - AUTOMATICS

H745-SH features our over the hammer thumb break, a metal reinforced belt loop with locking screw. Security blocks will retain the weapon until the draw is executed. This holster is leather lined and has a polyethylene layer to add strength. Has a open bottom and rides slightly muzzle forward. The partial closed front is metal reinforced and the position of the security blocks make the draw a natural forward and upward motion to present the weapon in a timely manner. To reholster, simply insert the weapon and push down. For extra security you must fasten the safety strap. Available in Black: *Finish- Plain, Basketweave & Clarino.*

TOP SECURITY-SH JACKET SLOT STYLE

LEVEL TWO SECURITY

Level two top draw, secure, simple and fast, after months of evaluation we find this holster to meet the demand for a duty style holster that provides security, safety and easy quick draw. With the aid of our new HRTL (hidden retention trigger lock) locking device this holster will automatically secure the gun when re-holstered. The retention lock will enter the trigger guard and the gun will rest safe and secure.

To activate simply release the low profile thumb break and continue moving thumb downward to release the secondary trigger guard release. At this time you will have a shooters grip, simply lift the gun straight up. To re-holster, insert gun, and push down to be sure the trigger guard lock is in place. At this time the gun is secure. You can take care of business with a feeling of safety until you have time to secure the thumb break snap for extra security. With very little practice the draw motion is very natural and fast. Available in Black: *Finish - Plain, Basketweave & Clarino.*

H738-SH

LEVEL ONE RETENTION - AUTOMATIC & REVOLVERS

The "Tiger" holsters are suede lined, and have a metal reinforced belt loop bent to contour with the hip. Other features are the tension screw on body and belt loop locking screw, covered trigger guard, open bottom, reinforced thumb break, and nylon sight tunnel. A polyethylene layer adds extra strength to this durable holster. Available in Black: *Finish— Plain, Basketweave & Porvair.*

COP I-SH

LEVEL ONE RETENTION - AUTOMATIC & REVOLVERS

The "COP I -SH" holsters are suede lined, and have a metal reinforced belt loop with locking screw, bent to contour with the hip. Other features are the tension screw on body, covered trigger guard with a reinforced overlay to keep the mouth open for easy reholstering, open bottom, reinforced thumb break, and nylon sight tunnel. A polyethylene layer adds extra strength and rigidity to this durable holster. Available in Black: *Finish- Plain, Basketweave & Clarino.*

NOTE: Please specify if you prefer leather lined. Available with a 1 1/2" drop shank upon request.

TOP SECURITY HIGH RIDE STYLE

LEVEL ONE PLUS TOP DRAW

This open top style holster is secure, simple and fast. The HRTL (hidden release trigger lock) locking device is the same as our duty style jacket slot except it has a high ride center belt loop and belt slot for good concealment. The holster will automatically secure the gun when re-holstered. The retention lock will enter the trigger guard and the gun will rest safe and secure.

To activate simply obtain a shooters grip, your thumb will travel down to the trigger guard release, then a smooth efficient draw can be made. To re-holster insert the gun and push down to be sure the trigger guard lock is in place. Available in Black: *Finish - Plain, Basketweave & Clarino.*

TOP SECURITY PADDLE STYLE

LEVEL ONE PLUS TOP DRAW

The same HRTL locking device is used in our duty holsters and our high ride style. The open top paddle style is secure, simple and fast. The Kydex suede covered paddle has two barbs that hold the holster in place when drawing the gun. Available in Black: *Finish - Plain, Basketweave & Clarino.*

M26

Snap on Cross Draw

X26

Snap on Cross Draw

The M26 and X26 holsters are designed with a snap on belt loop that has two directional snaps, fits 2 1/4" belt. A Polyethylene layer and clock spring adds rigidity and durability, covered trigger and closed bottom with weep hole. Available in Black: *Finish- Plain and Basketweave.*

T.C.H.

SINGLE TASER SPARE CARTRIDGE HOLDER

This holder is designed to fit the spare cartridge. The pocket is cut down to allow a secure grip of the cartridge. Fits a 2 1/4" belt. NOTE: The T.C.H. is also available with Hidden Snap closure. Has a sewn down loop for 2 1/4" belt. Available in Black: *Finish - Plain, Basketweave & Clarino.*

AGENT-SH TAC

The design is to carry a Tactical Illuminator mounted to the gun. This holster has a reinforced belt loop jacket slot. Leather lined, covered trigger, open bottom at muzzle, a reinforced mouth opening will add strength and help in reholstering. Will fit belts up to 2 1/4". Please specify make and model of gun and light model. Available in Black: *Finish – Plain or Basketweave.*

AGENT 711 TAC

TACTICAL ILLUMINATOR HOLSTER

The design of this holster is cut to permit the gun to mold toward the front leaving the back flat. The belt slots at each end holds the gun close to the body, very secured and comfortable. Reinforced mouth opening, giving well added strength and help in reholstering. Leather lined, covered trigger open bottom at muzzle. Will fit belts up to 1 3/4". Please specify make and model of gun and light model. Available in Black: *Finish- Plain or Basketweave.*

Available in Black: *Finish- Plain, Basketweave & Clarino.*

H721

"DOUBLE NINE" - AUTOMATIC & REVOLVERS

The "Double Nine" is made with a metal reinforced thumb break with recessed snap and double stitched sew lines at stress areas. This holster also has a covered trigger. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish - Plain.*

H721 O.T.

AUTOMATICS & REVOLVERS

H721 O.T. (Open Top) is a great concealment holster. Features a body shield to provide comfort between weapon and the user. Rides high & close to the body Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish - Plain.*

H726

AUTOMATICS

Similar to the popular H721 holster. The H726 is designed to enable the user to draw large weapons and still maintain a natural draw. With the spring loaded partially open front, it is only necessary to raise the weapon a short distance before executing the draw. Metal reinforced thumb break, double stitched sew lines. Will fit belts up to 1 3/4 inch. Available in Black: *Finish - Plain.*

H727

HIGH-RIDE - AUTOMATICS & REVOLVERS

On or off duty holster, designed to ride high, fits very close to the body. Open bottom with thumb break. Fits belts up to 2 1/4" belt loop. Available in Black: *Finish - Plain or Basketweave.*

Agent 711 T.B.

This is a pancake style holster. That provides a comfortable fit due to the unique design that permits the detailed molding to go to the front side keeping the back flat. It is compact and excellent for concealment. With a reinforced overlay at the mouth for a longer life expectancy and easy reholstering. Fits belts up to 1 3/4". Available in Black or Saddle Brown : *Finish- Plain.*

Agent 3 Slot

This holster is made of heavy weight cowhide and features a metal reinforced thumb break with recessed snap and double stitched sew lines and a reinforced overlay at the mouth for easy reholstering. The three slots will permit the user to position the holster cross draw or strong side, slight muzzle to the rear or straight up and down. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish- Plain.*

H717

WITH THUMB BREAK AUTOMATICS & REVOLVERS

The Agent 9 is designed to carry weapons of all barrel lengths. Metal reinforced thumb break and double stitched sew lines. Will fit belts up to 1 3/4" very concealable. Available in Black: *Finish - Plain.*

COPY II T.B.

LEVEL ONE HOLSTER

The unique design permits the detailed molding to go to the front side, keeping the back flat. The overlay keeps the mouth of the holster open and adds a pleasing look to the holster. The thumb break adds to the security of gun retention. The belt loop at each end wrap around the belt for convenience, easy on, easy off. Made with the best cowhide leather and finished with the best top coats. Available in Black or Saddle Brown: *Finish- Plain.*

COPY II O.T.

The unique design permits the detailed molding to go to the front side, keeping the back flat. The overlay keeps the mouth of the holster open and adds a pleasing look to the holster. The belt loop at each end wrap around the belt for convenience, easy on, easy off. The open top with detailed molding will hold the gun in place until the need to draw. Made with the best cowhide leather and finished with the best top coats. Available in Black or Saddle Brown: *Finish- Plain*.

J.I.T. Slide

AUTOMATICS & REVOLVERS

The design of this holster is to carry medium sized to small autos. Open bottom, wrap around front, belt loop at center and a covered slot pulls the weapon close to the body. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish- Plain*.

Y.S.O

YAQUI SLIDE-ON

Y.S.O incorporates two screws with rubber washers for tension adjustment. On the back side is a cutout for the pant belt loop and two holes for the tension screw adjustment. It's designed to accommodate more than one gun by use of the tension screws. Four sizes will fit most guns. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish- Plain*.

H710

"FIRST AGENT" - AUTOMATIC & REVOLVERS

This popular holster has double stitched sew lines. Rides high and close to the body. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish- Plain*

H720

PADDLE HOLSTER WITH THUMB BREAK - AUTOMATICS & REVOLVERS

This paddle holster is designed for easy removal. A wide suede covered Kydex reinforced paddle with two barbs spaced 3" apart will hold the paddle in place when drawing the gun. This holster rides slight muzzle to the rear. Available in Black: *Finish- Plain*.

H720 O.T.

2 IN 1 OPEN TOP PADDLE HOLSTER AND BELT SLIDE- AUTOMATICS & REVOLVERS

This holster can be worn as a high ride belt slide or a paddle holster. The belt slide will fit belts up to 1 3/4" wide, while the suede covered Kydex reinforced paddle with two barbs spaced 3" apart will hold the paddle in place when drawing the gun. Available in Black or Saddle Brown: *Finish- Plain*.

Y.S.O. Paddle

YAQUI SLIDE-ON

Y.S.O incorporates two screws with rubber washers for tension adjustment. It's designed to accommodate more than one gun by use of the tension screws. Five sizes will fit most guns. Our new Kydex paddle makes this a user friendly product. Available in Black or Saddle Brown: *Finish- Plain*.

IWB Strike

HOLSTER TUCKABLE

The IWB Strike holster tuckable with a 1 1/2" Kydex belt loop is designed as an inside the waistband that will permit a shirt to tuck between the holster and belt so as to provide maximum concealment. The holster is made of two pieces of cowhide leather for strength and durability and also features a thumb break with a safety strap. Available in Black: *Finish - Plain*.

PCCH

PREFERRED CONCEALMENT CARRY HOLSTER

This fine holster is to be carried inside the waistband strong side behind the hip. It has a wide belt loop with two pull-the-dot black snaps that function independently. Will fit belts up to 1 3/4". Reinforced top opening for easy re-holstering, form molded fit. A body shield will provide comfort between the weapon and user. Available in Saddle Brown: *Finish - Plain.*

H715-M W.C.

WAISTBAND CLIP-ON (OPEN TOP)

This inside the waistband holster is made of lightweight leather and form molded. The top opening of the holster is reinforced to aid in reholstering the weapon. The design works well strong side, crossdraw or behind the hip. Available Black or Saddle Brown: *Finish - Plain.*

H715-M T.B.

WAISTBAND CLIP-ON (THUMB BREAK)

Same as the H715-M W.C. except with a thumb break. Available in Black or Saddle Brown: *Finish - Plain.*

H715 SOFT POCKET

WAISTBAND CLIP-ON

A soft pocket inside the waistband clip-on holster. Smooth leather interior and split leather exterior. Available in Natural: *Finish - Plain.*

H715-M S.O.O.T.

Same as the H715-M W.C. except with a snap on belt loop. Available in Black or Saddle Brown: *Finish - Plain.*

H715-M WCS

WAISTBAND CLIP-ON WITH BODY SHIELD

Same features as the original H715-M W.C. but has the body shield preferred by some. Available in Black or Saddle Brown: *Finish- Plain.*

NOTE: If wearing in the small of the back, order the opposite hand.

D.A.H.

SMALL OF BACK OR STRONG SIDE

This holster is form molded to a snug fit, compact, easy to conceal. The belt loop design will permit the holster to be worn small of back or strong side. Also features a body shield to provide comfort between the weapon and the user. Fits belts up to 1 3/4". Available in Black or Saddle Brown: *Finish - Plain.*

001

002

FRONT POCKET STYLE

This holster may be carried in the front trouser pocket or a jacket pocket. The designs will help keep the weapon in the ready position. Can be used Right or Left Handed. Available in Saddle Brown: *Finish- Plain.*

ANKLE SAFE

Our new ankle holster is made of a neoprene wrap, Velcro closure and sheep skin padding for comfort. The holster body is of cowhide leather hand boned for a custom fit. Available in Black: *Finish - Plain.*

HIP POCKET STYLE

The design is for low profile concealment. Holster front is wet molded, a thin Kydex is placed between the suede and leather to assist in less printing of the gun, the suede leather is sewn to the backside to help hold the holster in place when a draw is made. Available in Saddle Brown: *Finish-Plain*

H760

ANKLE HOLSTER - SMALL FRAME AUTOMATICS & REVOLVERS

This ankle holster is comfortable due to the sheep skin pad and suede lining, also has Velcro® adjustment for size of ankle and length from garter to holster with detailed molding. Available in Black or Saddle Brown: *Finish- Plain.*

H770-A/H770-AA

SHOULDER RIGS

This shoulder holster features Hand Boned detail for a classy look. The shoulder holster is to be worn horizontally. The carry rings provide total range of motion, yet allow for excellent concealment. The holster also features a reinforced thumb break and a body-tension screw adjustment. A sewn on belt loop will permit strong side carry. A slot is cut into the belt loop to accommodate a tie down. The double side harness allows easy carry and balance. Each side is connected at the back center with a 2 inch wide elastic band. This provides freedom of movement and great comfort. It is fully adjustable. Specify make and model of weapon. Available in Black, Saddle Brown.

Finish - Plain.

THE PLATINUM SERIES

NYLON PRODUCTS BY DON HUME

These fine products are made of Ballistic Nylon, a durable strong weave.

Resistant to abrasion, moisture, mildew and dry rot from ultra-violet radiation. Belt loops are of the impregnated webbing.

The non-woven polyethylene fabric with thermal transfer capabilities is placed between the Ballistic nylon which permits the products to become rigid when form molded. This provides a long-lasting product with a high quality appearance.

All edges have a nylon binding sewn in place to prevent fraying and gives a finished look to the product the interior is a smooth slick nylon.

These products are low maintenance, and easy to clean. In most cases lukewarm water and a mild detergent should work. Be sure to pat off excess water and air dry. "NEVER MACHINE WASH OR DRY".

As with all products, you should inspect them on a regular basis to be sure they will perform when needed.

NTOP SECURITY

LEVEL TWO TOP DRAW BALLISTIC NYLON DUTY HOLSTER

Rigid construction for durability, metal reinforced belt loop with locking screw, covered trigger guard, open bottom. After months of evaluation we find this holster to meet the demand for a duty style holster that provides security, safety and easy quick draw. With the aid of our new HRTL (hidden retention trigger lock) locking device this holster will automatically secure the gun when re-holstered. The retention lock will enter the trigger guard and the gun will rest safe and secure.

To activate simply release the low profile thumb break and continue moving thumb downward to release the secondary trigger guard release. At this time you will have a shooters grip, simply lift the gun straight up. To re-holster, insert gun, and push down to be sure the trigger guard lock is in place. At this time the gun is secure, for extra security always secure the thumb break safety strap.

NT FORCE

LEVEL TWO PLUS SECURITY TWIST & DRAW BALLISTIC NYLON DUTY HOLSTER

Rigid construction for durability, detailed molding for a good fit. Metal reinforced belt loop jacket slot, covered trigger guard, reinforced mouth opening for durability and easy reholstering, body tension screw adjustment, open bottom and a molded sight tunnel.

To draw the gun, obtain a shooter grip, activate the low profile thumb break, slightly twist the grip of weapon toward your body and up. This will release the acrylic trigger guard release. With a little practice this security feature becomes fast and smooth.
