SPECIALTY | GAT (LE ONLY)

WL-GAT™ Streamlight TLR - CSAT Weapon Light Glass Assault Tool

LE/MIL Only. Will not fit TLR-1 HL

Item: **GA-0004T-1**

Manufacturer: **XS SIGHT SYSTEMS, INC.**

XS WL-GAT slips on the end of the Streamlight TLR-1 weapon light, allowing the operator to break glass while keeping both hands on their weapon.

Does not fit any other variants of the TLR: TLR-1 HL, TLR-1 S, TLR-1 HPL, TLR-2, etc.

Works well with Safariland 6xxx series holsters once you remove the plug; on occasion a GAT at max tolerances will not slide easily into a holster at minimum tolerances. Does not work with Safariland 7xxx series holsters; the channel for the light was reduced enough that the GAT no longer fits.
