MAG662 - PMAG® 27 GL9®

FLOOR PLATE

The PMAG 27 GL9 is a 27-round Glock 9mm handgun magazine featuring our proprietary all-polymer construction for flawless reliability and durability over thousands of rounds. Meeting the overall length requirements for a 170MM competition magazine, the PMAG 27 GL9 offers additional capacity without the need for expensive extensions. Includes a high visibility, controlled-tilt follower, a stainless steel spring, and an easily removable floorplate for cleaning. Also includes a paint pen dot matrix for magazine marking, ridged floorplate edges for better grip, and capacity indicator windows. Drops free when loaded or unloaded. All with the same boring reliability you expect from an OEM magazine. The PMAG 27 GL9 is compatible with all full-size, compact, and sub-compact double-stack Glock 9mm variants with some protrusion below the grip.

Designed and manufactured in the U.S.A.

Features

- Compatible with all 9mm double-stack Glock handguns
- Durable, lightweight, and extremely stiff polymer construction
- High visibility, controlled-tilt follower
- Long-life stainless steel spring for corrosion resistance
- Flared, easily removable floor plate
- Dot matrix panel for magazine marking and identification
- Magazine indicator windows on both sides of body at 10, 15, 20, and 27 rounds remaining
- Drops free when loaded or unloaded
