

# TACTICAL SPECIALTY SUPPRESSOR COVER

## MIRAGE MITIGATION

Our 6" Suppressor Cover holds true to our core mission of safety by mitigating radiant heat that causes burns and mirage distortion to the shooter's sight picture. The cover is hand crafted with CarbonX® heat-resistant fabric, padded with heavy felt, and insulated with aluminum to contain extreme heat up to 2000° Fahrenheit.

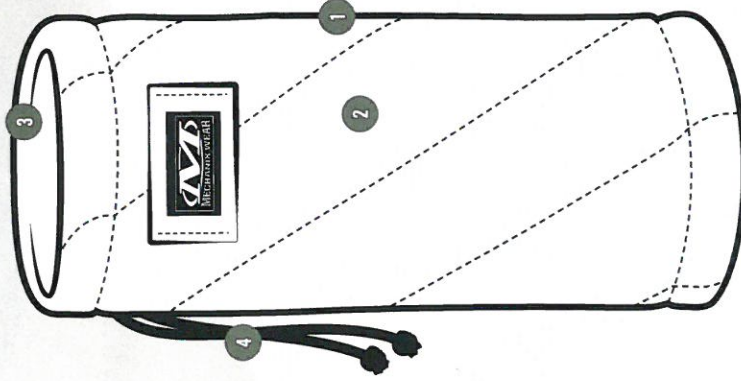

### FEATURES

- 1 Designed for 1.5" outer diameter round suppressors with a body length of approximately 6".
- 2 Outer construction with CarbonX® fabric rated to 2000° Fahrenheit.
- 3 Interior construction combines CarbonX® fabric, heavy felt, and aluminum insulation to mitigate extreme heat up to 2000° Fahrenheit.
- 4 CarbonX® cord with metal lock provides a secure fit to your rifle.

**CARBON X** CARBONY®
