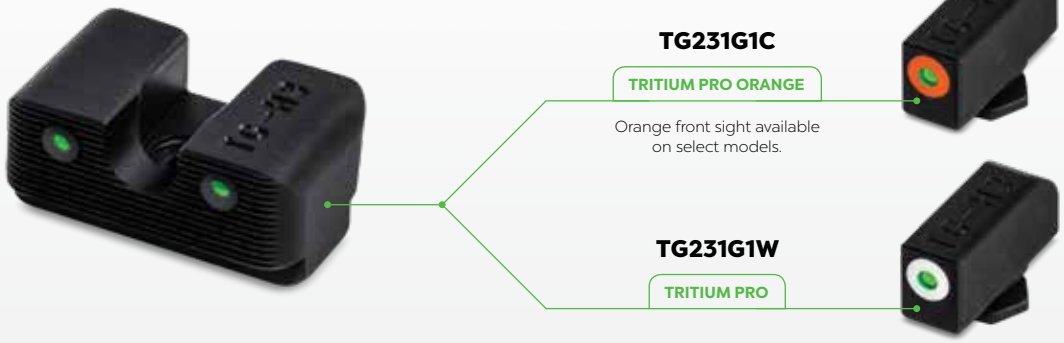
TRITIUM PRO

HANDGUN NIGHT SIGHTS

Simply put, TRUGLO® manufactures bright ideas. When TFX™ PRO sights immediately took off and gained critical acclaim, we noticed that the world of TRITIUM night sights needed a similar upgrade. Starting with the brightness and durability of our original TRITIUM night sights, we added all of our PRO level features, now including an orange FOCUS•LOCK™ ring for increased front sight contrast.



- Front sight FOCUS•LOCK™ ring for even faster focus
- Angled rear sight edge for emergency one-hand operation
- Unmatched visibility in all shooting conditions 24/7
- Compact design maintains factory sight radius
- Assembled in USA with quality Swiss tritium for maximum brightness
- Glows in the dark – no batteries or light exposure required
- FORTRESS FINISH™ nitride protective coating
- Fits most standard holsters
